Turning aspirations into reality

Aspiration is undoubtedly one of strongest emotions of mankind. Aspiration serves as a motivator for people to achieve far-fetched goals and set new milestones. We believe that, at Laurus Labs, it is both our opportunity and responsibility to accentuate the aspirations of our customers by giving addresses to their aspirations.

At Laurus Labs, we have a clear vision to translate our ideas into reality – relying on a foundation of innovation, distinct capabilities and a focused strategy to give direction to our thoughts. Our unwavering efforts to discover new ways of growth, achieve cherished goals, and deliver unrivalled performance enable us to lay the groundwork for long-term growth. This is supported with several approvals anticipated and good progress what we are seeing in multisite capacity expansion across API, formulations and Contract Development and Manufacturing Company (CDMO) division.

Our success is built on the strength of our research and manufacturing capabilities. It enables us to build end-to-end capabilities, create advanced formulations, and meet stringent regulatory requirements. We are at an extremely opportune point in our journey and are excited about not only accelerating and broadening the growth path, but also strategically aiming to expand our foray into the pharmaceutical space while constantly lending stability to a dynamic organisation.

About Laurus Labs

A foundation for the future

We are an innovative research-driven pharmaceutical and biotechnological company that develops cost effective and quality medicines aiming to enhance health outcomes for patients with a continuous focus on quality, access and affordability.

At Laurus Labs, we are a fully integrated pharmaceutical and biotechnology company, with a leadership position in Active Pharmaceutical Ingredients (APIs) in selected high-growth therapeutic areas and major focus on anti-retroviral, Hepatitis C, and oncology drugs. Today, we are one of the leading suppliers of APIs in the ARV therapeutic area for multinational pharmaceutical companies across different parts of the globe.

We are thriving on growth opportunities starting from manufacturing to service to all leading markets of North America, Europe, and Low Middle-income Countries (LMIC). Driving growth opportunities in contract development and manufacturing through our synthesis business, we support drug development and manufacturing programmes for global pharmaceutical and biotech companies at all stages, i.e., from pre-clinical stage to commercialisation.

VISION

To become a leading player in offering integrated solutions to global pharmaceutical needs in creating a healthier world.

MISSION

We constantly strive for innovation to enhance quality and to provide affordable integrated pharmaceutical solutions to facilitate wellness and well-being across the globe.

Knowledge

Seek to learn constantly to stand out from the crowd

Innovation

Strike out on new paths to go farther

Excellence

Scale new peaks in everything we do

Care

Be diligent, safe and sensible

Integrity

Stand up always for what is right

Business areas

At Laurus Labs, we operate under four business units covering a wide range of therapeutic applications:

Generic Formulation (FDF) -

Development and manufacture of

oral solid formulations

Generics - API - Development, manufacture and sale of APIs and advanced intermediates

CDMO-Synthesis - Key starting materials, intermediates and APIs for New Chemical Entities (NCEs)

Laurus Bio - Manufacture of animal origin free recombinant products that are safe and sustainable

Business overview

Leveraging integration to grow value across businesses

We offer a broad and integrated portfolio of products and services to the global pharmaceutical industry. The journey from APIs to formulations to synthesis businesses is the outcome of our integrated strategy, which we have successfully executed in all these years. Our four business units cover a wide range of therapeutic applications across the product value chain.

Generic Formulation (FDF)

Performance review

- » FDF business grew 13% y-o-y to ₹1,880 core
- » Gradual stabilisation of ARV demand from Global Agencies and Developed markets sales strong over 2020-21 led by portfolio expansion
- » Signed up for MPP license for Pfizer anti-Covid pill Paxlovid to increase the broad access in LMIC markets
- » Brownfield capacity expansion at Unit 2 (to add 4 billion units) is on track and expected to get commercialised by Q1 2022-23
- » 9 product dossiers were filed in Developed markets in 2021-22

Overview

- » Development and manufacture of oral solid formulations for LMIC, North America and European Union (EU) markets
- » Backed by in-house API strengths

Product and service offerings

- » Anti-retroviral (ARV)
- » Anti-diabetic
- » Cardiovascular
- » Proton Pump Inhibitors (PPIs)
- » Central nervous system (CNS)

2021-22 highlights

- » Sustainable ARV business and steady market share gains + new launches in Developed markets are key drivers
- » 10 product dossiers were approved
- » Brownfield lines to get operational before June 2022

38%

Revenue contribution

Generics - API

Performance review

- » The division declined 22% y-o-y due to high base effect of excess channel inventories. While overall demand environment stays softer, we remain optimistic about further recovery
- » Overall growth in other APIs and oncology revenues was modest
- » Backed by higher order book visibility, we are accelerating capacity expansion in select high growth therapeutics with total reactor volume of +7,000 KL by the end of 2022-23

41%

Revenue contribution

Overview

- Development, manufacture and sale of APIs and advanced intermediates
- » Leaders in various high-value and high-volume APIs with a sizeable global market share
- » High potent manufacturing units

Product and service offerings

- » Anti-retroviral (ARV)
- » Anti-diabetic
- Cardiovascular
- » Proton Pump Inhibitors (PPIs)
- » Oncology

2021-22 highlights

- » Growth impacted from destocking in ARV business at channel level
- » Seeing signs of early recovery and complete stabilisation expected through 2022-23
- » Muted performance for Other APIs; Expect growth rebound supported by new contract supplies ahead
- » 12 DMFs filed
- » Brought new capacity on stream and adding more capacities in high growth non-ARVs

Business overview

3

CDMO - Synthesis

Performance review

- » The CDMO business grew solid at 77% y-o-y due to new client additions and increased business from existing customers
- » Customer base further diversified, US, EU and Japan are still three most important markets
- » Signed new CDMO multi-year partnership with leading Global Lifesciences company for niche APIs. Part of the Capex to be funded through long term commercial advance by the customer apart from sponsoring development cost
- » Secured fresh purchase order from Global Life Science major
- » Commercialised LSPL unit 1. Greenfield investment to set up a dedicated R&D center (2022-23) at Genome Valley, Hyderabad and three manufacturing units in Vizag on track (2023-24/2024-25)

Overview

- » Contract development and manufacturing services for global pharmaceutical companies and several late-stage projects
- » Steroids and hormone manufacturing capability
- » Sale and manufacture of specialty ingredients for use in nutraceuticals, dietary supplements and cosmeceutical products with natural extraction capability

Product and service offerings

- » Commercial scale contract manufacturing
- » Clinical phase supplies
- » Analytical and research services
- » Nutraceuticals, dietary supplements and cosmeceutical products

2021-22 highlights

- » Expanded CDMO capability and customer base
- » New CDMO contracts signed with leading Global Lifesciences company
- » Initiated capex for dedicated R&D center and manufacturing units

19%

Revenue contribution

4

Laurus Bio

Performance review

- » 2021-22 revenues improved materially by +70% over pre-acquisition annualised run-rate led by attractive market opportunities
- » Gradually ramping up on the 180 KL fermentation capacity with our large scale CDMO partners
- » Continue to work on improving products offering and improving go-to-market by leveraging relationship
- » In process to acquire additional land parcel with a plan to create close to 1 million litres fermentation capacity in Phase 1

Overview

- » Precision fermentation and recombinant DNA technology
- » High-volume industrial-scale biotechnology products for food, health, and nutrition markets

Product and service offerings

» Offer in-depth fermentation-based product development and manufacturing expertise, as a service (CDMO) to novel protein companies and bio-manufacturers — from clone development, strain engineering, process development, and scale-up to large-scale commercial manufacturing, supporting our customers at every step of the microbial precision fermentation value chain.

2021-22 highlights

- » Recorded ₹100 crore in sales
- » Operationalised 180 KL capacity in food proteins

2%

Revenue contribution

Manufacturing facilities

Comprehensive capabilities with extensive reach

We currently have seven manufacturing facilities in Visakhapatnam, Andhra Pradesh, one API facility in Bibinagar near Hyderabad and one R&D centre, equipped with a Kilo Lab, in Hyderabad. At seven of these facilities, we manufacture drug substances and one facility is well-equipped to manufacture both drug products and drug substances. We also have fermentation based capability for Recombinant food proteins at two of our units under Laurus Bio.

CEO's message

Enduring faith in our abilities

We have emerged as one of the leading pharma companies on the back of expansive product portfolio spanning multiple therapeutic areas.

Dr. Satyanarayana ChavaChief Executive Officer

Dear Stakeholders,

2021-22 was another year of rapid change for the pharma industry and the world. The pandemic continues to disrupt care for patients across the spectrum of diseases apart from COVID-19, that requires healthcare systems to adapt and scale much quicker than earlier to cope with COVID-19 while caring for patients with chronic diseases. Through the challenges ahead, there are reasons to be optimistic about a healthier future which is within our grasp – the ways our industry has brought to this crisis the power of technology and shown once again the extraordinary ability of science to overcome humanity's greatest tests.

During the year, we invested significantly in capacity creation, built new partnerships in CDMO and steadily delivered on diversification of revenues along with our R&D capabilities with minimal supply chain impact. We also successfully forayed into disruptive CAR-T technology by investing in Immuno Act for a substantial minority stake. This investment should significantly help in bringing innovative and more affordable medicines. The investment in ImmunoACT is part of the larger strategy to strengthen the biologics business, and this provides access and entry into an emerging field of research.

We are strengthening our core to increase the resilience of our business operations to deliver long-term sustainable growth and enhance strategic customer value proposition in the coming years. As a result, we remain confident in our aspirational sales target of a billion-dollar in fiscal year 2023, which will be supported by several anticipated approvals and good progress in our multi-site capacity expansion across all divisions.

We have emerged as one of the leading companies on the back of an expansive product portfolio spanning multiple therapeutic areas. This ensures that we can capture the growth in various products and categories while reducing the risk of dependence on any single product.

Building a strong foundation for the future

The formulation division reported revenue of ₹1,880 crore in 2021-22 with 13% growth. Prolonged channel de-stocking observed in ARV-API sales dragged down the performance in the division. Simultaneously, the oncology API and other API revenues are gaining good traction with a strong growth outlook backed by a strong order book. Laurus is a fully integrated player in ARV formulations, and we do believe we have a fair ability to weather any pricing challenges in the coming quarters. We have signed and will be part of the MPP license for Pfizer's oral COVID drug; this will increase the broad access in LMIC markets. Momentum in the Synthesis business remains strong. We have scaled up our capex for 2022-23 and 2023-24 to cater to future growth across segments.

Our financial performance highlights our progress and drives confidence for the future. Our revenue grew by 3% to ₹4,936 crore, driven by impressive growth in CDMO business and healthy FDF performance. EBITDA came at ₹1,436 core with sustained EBITDA margins of 29% as better mix offset negative operating leverage.

On R&D front, we continue to allocate critical resources and invest in a portfolio with a product-specific approach, not the market-specific approach based on the complexity and scale economies. Additionally, we are implementing steps to bring more robustness in our overall product development processes.

Our commitment to quality

We work closely with leading innovators, global health organisations, and providers, without compromising quality standards keeping our core philosophy of 'One

Quality Standard for all 'Markets'. In addition, we focus on strengthening our operations by increasing automation, enhancing our data and analytics skills, and implementing emerging technologies to improve product quality.

ESG progress

We also made further progress in our environmental, social, and governance (ESG) activities, which are an essential part of our strategy and an important reputation driver. Continued to get "A" rating by MSCI - among the top 25% of global pharma companies evaluated on ESG risk tolerance. At Laurus, we support 14 out of 17 UN SDGs and encourage all businesses to consider how they may contribute.

We recognise the role of our employees in shaping a sustainable future and, therefore, aim to foster a corporate culture that aligns business aspirations with the growth and development of our people. The training programmes offer an ideal blend of e-learning and classroom sessions to enhance skillsets and foster professional development. As we work towards a higher purpose of creating a more sustainable world, we will continue to focus on our CSR approach to enhance value for stakeholders across verticals.

Outlook

The outlook for the Synthesis and FDF segments was encouraging, while the API segment's performance is likely to normalise in 2022-23. We continue to strengthen our position as a cost-effective integrated pharma player by investing in backward integration efforts to create additional API and FDF capacities in non-ARV infrastructure.

We remain grateful to our shareholders for their constant trust and faith in our capabilities. I express my gratitude to each stakeholder including our employees, for your continued support and continuous motivation to scale new peaks of success year after year. Resting on our strategic interventions and consistent efforts to improvise novel ways of delivering exceptional performances, we remain optimistic about a brighter future and better prospects.

Regards,

Dr. Satyanarayana Chava

Chief Executive Officer

K

Turning aspirations into reality

Diversified division mix

We have steadily invested in a wide range of innovation to make our portfolio of products diverse and differentiated in a competitive market scenario. Over the years, we have substantially strengthened our product portfolio.

1

Generic FDF

Leveraging on strong backward integration, Laurus has demonstrated commendable execution capability in the formulation division growth, driven from tender driven opportunities. Based on healthy product pipeline progress, we continue to invest in FDF infrastructure and our brownfield expansion at Unit 2 is progressing as per our expectations and is expected to add significant capacity.

2

Generics - API

Laurus Labs is one of the world's leading suppliers of anti-retroviral APIs and intermediates and has developed several products in the anti-diabetic, cardiovascular and gastroenterology therapeutic areas. We are adding more capacities into the high potent areas located at unit four. Our aim is to strengthen further our leadership in some of these oncology and high potent molecules. Over the long term, plans to enter the other API's (diabetology and cardiology) would drive the growth of the API's.

3

CDMO-Synthesis

Laurus's synthesis business has recorded an impressive growth backed by traction in existing commercialised molecules and new customer additions. In addition to the emerging opportunities at the industry level, the recent win of a multi-year contract with a global life sciences company bodes well and we are setting up a dedicated facility for the same.

- » Customer base further diversified
- » 50+ projects handled across the value chain
- » Increased investment to enable customers globally via capacity creation
- » 550+KL dedicated capacity

4

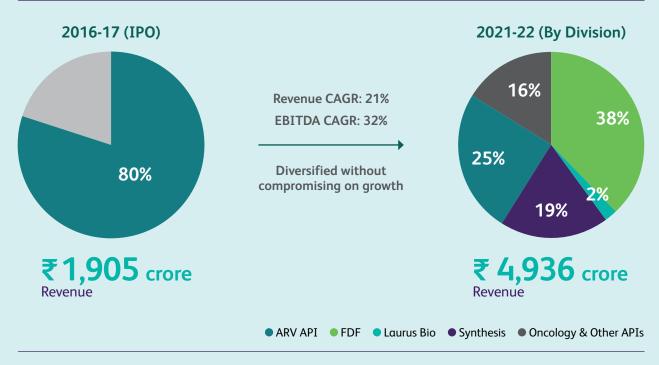

Laurus Bio

Laurus Bio is expected to gain significant traction as it has recently completed a massive expansion plan. We are planning to add 1 million litres of fermentation capacity for Laurus Bio which will come online only in 2023-24 and drive growth in 2024-25.

Fundamentally - Diversified our division mix

Intensifying the transformation drive

- » Continued organic investment in manufacturing asset
- » Integrated approach across portfolio

ARV: Anti Retroviral

- » Continued quality focus
- » Capable leadership team

Turning aspirations into reality

Leveraging capacities to improve access and adequate supply

At Laurus Labs, we have progressively invested in adding capacities to leverage economies of scale and to ensure adequate supply for our customers.

During the year, we commissioned 1 billion tablets capacity and plan to commission another 4 billion tablet capacity by end of Q1 2022-23 thus doubling the FDF division's capacity to 10 billion tablets per year. Material benefits from capacity expansion plans are likely to be visible in 2022-23. Further the expanded capacities do not need regulatory approvals as they are at an already approved site. With the product approvals flowing in, the utilisation rates of the new capacities could improve gradually and would add to the overall growth. Collectively, a healthy demand environment,

well complimented by commissioning of expanded capacities provide ample visibility on the growth ahead for formulations division.

We have also undertaken a greenfield investment to set up a dedicated R&D center in Hyderabad, and three manufacturing units in Visakhapatnam. Going ahead, the strong traction is expected to improve further and drive the overall growth of the company. New sites will have the capabilities to handle steroids, hormones, high potent molecules apart from large scale products.

Re-investing to support long-term growth

Location	Expansion type	Division	Status and capacity	Operational timelines
Vizag	Brownfield	Generic Formulation (FDF)	Unit 2 – 4 billion units (new building)	Completion before June 2022
	Brownfield	Generic Formulation (FDF)	Unit 2 – 1 billion units (De-bottlenecking)	Completed
	Brownfield	Generics - API	Unit 3 and 4 (1,000 KL)	Completed
	Brownfield	Generics - API	Unit 1 (LSPL)	Completed
	Greenfield	Generics - API	Unit 7, 8 – land acquired	2024-25
	Greenfield	CDMO - Synthesis	Land acquired (Unit 2 and Unit 4 – LSPL)	2023-24
	Greenfield	CDMO - Synthesis	Land acquired (Unit 3 – LSPL)	2024-25
Hyderabad	Greenfield	Generic Formulation (FDF)	Unit 9 – land acquired	Phase 1 – 2023-24
3.6	Greenfield	R&D center (Synthesis) Hyderabad	Land acquired	2023-24

Turning aspirations into reality

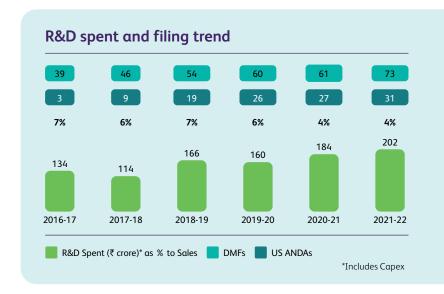

Strong R&D approach and commitment to quality

Laurus Labs is a research-based pharmaceutical and biotechnology company that develops innovative medications for significantly improving patient health. By leveraging our strong R&D, knowledge, expertise, and innovation capabilities we seek to improve manufacturing process efficiencies and backward integration strategy to maintain cost competitiveness.

We proactively invest in state-of-the-art research & development (R&D) activities and manufacture infrastructure to ramp up supply of critical medications across geographies with continued emphasis on best-in-class quality and global compliances.

We have a specialised R&D team of over 790 people, made up of competent researchers, scientists, and product specialists who are committed to strengthening Laurus Lab's intellectual property via excellence and innovation. The R&D team focuses on process intensification, technology absorption, and commercialisation of technologies. We conduct technical and commercial feasibility assessment before selecting molecules. Feedback from the customers is used to enhance our research acumen and focus on margin accretive businesses. We ensure improving existing products through research and development while also paving the path for new ones in high-growth sectors.

Quality

With strong R&D capability, we manufacture quality products that meet standard of major health authorities globally. We have a relentless focus on Quality Control and Quality Assurance. Strict adherence to cGMP norms as well as our efforts towards continuous improvement of product, process and the skill of workforce enables us to improve our offerings to our customers and consumers on a regular basis.

Recognisng the significance of delivering the quality products we adhere to stringent quality standards throughout our operations. Our state-of-the-art facilities enable us to develop quality and affordable medicines. We adhere to the idea of a single quality standard that applies to all markets. It has put in place a well-defined validation and qualification structure to ensure that systems, facilities, and processes are planned and builtin accordance with client needs.

Our dedicated quality and regulatory teams provide technical and market support for all regulatory affairs. Additionally, our manufacturing facilities comply with the requirements of Integrated Management System (IMS), strictly following ISO 9001-2015: Quality management System, ISO 14001-2015: Environment Management System and ISO 45001-2018: Occupational health and Safety Assessment system standards.

Ensuring quality

- Receipt, storage and handling of raw materials: Raw materials are verified at the warehouse through necessary documentation, approvals, etc.
- » Manufacturing facilities: We have well designed facilities for the manufacturing, testing, storage of the products for meeting the regulatory and cGMP requirements.
- » Quality control department: We have well designated facilities and well-trained personnel and procedures available for sampling, inspecting, and testing of raw materials, packing materials, intermediates, API, finished products and monitoring of environmental conditions.
- » Quality assurance: We have a well-established quality assurance system to release or reject raw materials, packing materials, in process materials, intermediates, APIs and finished Goods. In addition, we also use electronic quality assurance management software for handling quality management systems. Learning management system software for handling training.
- » Quality review meeting & safety committee meeting: Monthly reviews and inspections are conducted to look out for any quality and safety related issues respectively

Business model

A model delivering on commitments

We create sustained value and growth through the effective use of our resources and our relationships. We act in line with our core values which, together with our focus on building on a more sustainable business, drive us towards our vision for a cleaner, healthier world.

Inputs

Financial

Investment in R&D and manufacturing facilities enables us to expand our product portfolio, technical capabilities, geographic reach and manufacturing capacity.

Knowhow and intellectual capital

Laurus Lab's competitive advantage is its science and technology. We use our industry leading capabilities across our sectors to create sustainable solutions. We own patents covering our science, technology and processes.

Relationships

Strong relationships with regulators and health authorities across all our markets, and successful collaborations with industry partners, enable us to achieve our growth objectives.

Natural resources

We source raw materials responsibly and use them efficiently as possible.

Capabilities

We have extensive manufacturing capabilities across global markets, focused on operational excellence and efficiency.

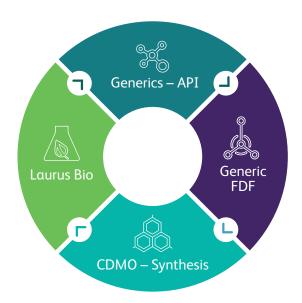

People

We have a highly skilled, diverse and effective workforce. Through continuous training of our people and by hiring new talent, we secure our future development.

Our activities

While we conduct diverse operations across different business divisions and markets, they are aligned with our purpose – to make quality medicines accessible to the people who need them.

Resources we deploy

- » High quality manufacturing
- » Broad R&D capabilities
- » Experienced sales and marketing team
- » Strong partnerships
- » Dedicated employees
- » Decade-rich experience with exposure to global markets

Value we create

Patient benefits

- » High quality, affordable medicines
- » Innovative in-licensed products
- » Products tailored to patient needs

Sustainable financial growth

Delivering consistent, profitable and responsible growth for our investors

Social and economic opportunity

Enabling hundreds of thousands of people to benefit from opportunity created by growing along with us, including employees, suppliers and research partners

Environment and local communities

R

Operating context

Key trends transforming the industry

Our business environment is undergoing tremendous change. We are facing new challenges due to the complexity of care and increasing pressure on healthcare budgets. At the same time, we see new opportunities arising from major advances in life sciences and from digitalisation in healthcare.

Demographic shifts influencing global healthcare needs

Key demographic trends are changing the world we live in:

- » The world's population is projected to increase to 8.5 billion people by 2030 and reach almost 10 billion by 2050. The current population of sub-Saharan Africa is projected to double by 2050
- » Global ageing is expected to accelerate in the coming decades as a result of significant gains in life expectancy in recent years coupled with declining fertility rates
- » Increasing urbanisation and improved economic activity result in better informed patients, actively involved in sustaining their health with increasing expectations for access to medicines and surgical procedures. In turn, this creates greater socio-economic awareness and political pressure to ensure broader and affordable

Ongoing pressure on medicine pricing

The rising demand for healthcare, which is being driven in part by demographic and socioeconomic factors, is putting a strain on public healthcare systems. As countries seek to achieve better value in healthcare spending, the debate over access to affordable healthcare, pricing, and reimbursement has gained traction in policy discussions around the world.

Digital tools to improve patient outcomes

Technology continues to evolve at a rapid pace, reshaping the way we live, work, and interact with one another. Advances in artificial intelligence, digital technology, and data analytics are allowing researchers in the healthcare industry to explore and interpret increasing volumes of data more efficiently. Digital tools, including telemedicine and remote-working instruments, are bound to change patient interactions and make access to healthcare services easier. Embracing new technologies will open up alternative opportunities for more precise chronic disease management.

Partnerships with academia for asset selection and early clinical development

The growing number of academic and industry-sponsored partnerships for asset selection and early clinical development, particularly in the field of cell and gene therapy, is an encouraging development (CAGT). With emerging biopharma taking the lead in developing advanced therapies, the future looks promising for more collaborative partnerships and innovative multi-stakeholder engagement models.

Climate change impacts business sustainability and human health

Climate change has an impact on every aspect of human life, from water and food availability to extreme weather events and pollution. Climate events endanger supply and distribution chains, raising concerns about the continued availability of resources needed to sustain current business models. It also has an impact on the social and environmental factors that influence human health, such as clean air, safe drinking water, enough food, secure shelter, and the prevalence of vector-borne diseases.

Our response

We expect that the demand for healthcare services will continue to grow as people live longer. Treatments will need to be adjusted to respond to more complex health issues. To remain competitive, we will continue to meet the changing needs of our patients. Our teams continuously scrutinise the competitive environment and its evolving dynamics. We have a broad product portfolio, high quality operations and a steady stream of new product launches across our markets, which help us to be resilient to the changing landscape. Our aim is to strengthen global leadership in some of the existing products by focusing on high potent molecules and increase our market share.

Environment

Footprints of positive change

At Laurus Labs, environmental stewardship is a key driver of our business strategy as we work to protect our natural resources, address climate issues, and reduce carbon emissions across our value chain.

Energy management

Energy management is one of the prime focus areas under natural capital at Laurus, since it has a direct impact on emissions and cost of operations. Our manufacturing operations are heavily influenced by energy use and energy mix. We have made a concerted effort to move a greater proportion of our energy consumption to renewable and clean sources.

All our facilities use energy efficient LED lighting. Further, we have also introduced energy efficient machinery into the manufacturing process. Internal and external audits at our manufacturing locations keep track of our energy management performance and help identify areas for improvement. Various initiatives such as replacement of energy inefficient equipment and heat recovery in AHUs were undertaken.

20,56,18,825 Kwh Energy consumption

Water management

Water is a valuable natural resource and is used throughout our manufacturing process. Water management is therefore one of the most important parameters in our sustainability agenda. We take all possible precautionary measures to manage and improve our water footprint. We reduce, recycle, and reuse the highly pure water we use during the manufacturing process. Rainwater harvesting is also done in non-production areas such as administrative buildings and cafeterias.

13,36,358 KL Water consumption

Emissions

At Laurus Labs, we understand the imperative to reduce Greenhouse Gas (GHG) emissions in our operations. Our GHG emissions are generated from diesel, natural gas, furnace oil (residual fuel oil) and electricity consumption. We were able to significantly reduce GHG emissions with the support of our renewable energy programmes, in addition to an overall reduction in GHG emissions through conventional energy sources.

5,89,030 Kwh

Waste and effluents

Laurus Labs strives to reduce waste generated at the source, where possible, and recycle the rest, in keeping with our focus on sustainable business operations. A considerable portion of the waste generated in the pharmaceutical industry is categorised as hazardous and must be handled with caution. We ensure that the waste generated by our operations is managed and disposed of responsibly and in accordance with all applicable regulatory rules.

We also regularly monitor our waste management systems and procedures to ensure that the waste generated throughout our sites undergoes proper and safe treatment. Solvent recovery systems deployed at our API locations allow predefined volumes of used solvent to be recovered. Our operational efficiency allows us to use resources conservatively and reduce waste. We comply with all the local and national regulations, in addition to adopting global standards in safe handling and disposal of emissions and effluents.

2,782 MT Waste recycled

Social - People

Shaping an inclusive culture where everyone can thrive

Our business strategy and business have sustainability at the heart of it. We aim maximise the value we create for our stakeholders and conduct business in way that it protects rights of all stakeholders.

Our employees are key to our success, and as a result, we invest significant resources in ensuring we are an employer of choice in all the regions where we operate. Our long-term success depends on being a safe workplace where employees feel engaged and take care of each other.

Diversity and inclusion

A diverse workforce spurs creativity, leading to new and innovative ideas. We aim to be an attractive employer that offers an inclusive, diverse, safe, and ethical working environment, in which all the employees have equal opportunities to realise their potential. We have a multigenerational workforce with millennials forming 88% of the permanent workforce. Additionally, women represent 8% of our entire workforce.

Talent management

Our talent management process focuses on developing, promoting, nurturing, and retaining the best talent from the industry. The aim to maintain high quality standards stems from an ever-increasing commitment to employee's professional development. Employee development is important to us because it improves our people's productivity and capabilities as well as their ability to stay updated in the changing business environment.

Induction / onboarding and value orientation initiatives

We have an interactive induction programme aimed at familiarising newcomers with our culture, values, business, financials as well as to set the right expectations at the beginning of their journey with the firm.

Laurus Labs IGNITE: The programme aims to establish open lines of communication between the company and the employee. All the new workers who have completed 30 days with the company and their SANCHALAKS will be eligible for the programme. The staff will participate in a three-hour interactive workshop led by one of our Laureate leaders.

Learning and development

Continuous professional development and upskilling of our employees is at the heart of growth strategy. Therefore, we organise periodic training programmes (digital), knowledge sharing sessions and offsite training programmes/seminars as part of learning and development programmes. In the reporting period more than 99,000 training hours were spent on training.

- » We provide technical training based on standard operating procedures (SOPs) The quality assurance team is responsible for imparting training with a focus on process adherence and preserving SOP documentation.
- » Employees benefit from our on-the-job learning approach. In most of the cases, this is accomplished using the "coaching/supervision" system, in which an experienced supervisor gives live instructions to the staff to perform a particular job.
- » We have a digital Learning Management System that enables easy delivery of L&D initiatives
- » Soft and behavioural skills-based training are imparted through the course of the year. These are aimed at boosting business effectiveness, talent development and employee career progression.
- » Management Development Plan (MDP): The goal of this programme is to provide participants with all they need to recognise their strengths and develop the abilities necessary to manage and lead teams. These sessions are interactive and participatory in nature. The participants are chosen from a pool of middle management leaders, who have been identified as potential leaders.
- » Leadership Development Programme (LDP): We are committed to developing a strong leadership pipeline, as in any growth-oriented firm. We discover and train high-potential leaders for senior management positions.

Social - People

Employee engagement

We, at Laurus Labs, believe that a motivated workforce helps a company achieve its goals and foster a great culture. We offer a variety of projects focused on employee well-being and engagement around the world.

Human rights

Our people strategies are focused on ensuring a safe working environment for all employees. We have developed policies that help streamline the day-to- day operations of the business, maintain order within the organisation and ensure that people are treated fairly and equally.

Safety

Making our operations safe and secure, by developing adequate operating procedures, safety focused culture and improving equipment is our priority. We have designed detailed procedures (EHS Risk Assessment) for identifying work-related hazards and assessing risks on a routine basis to apply the hierarchy of controls to eliminate hazards and minimise risks. We have constituted a safety committee with joint members of management worker representatives to examine safety related matters. Individual contract workers can report their safety concerns to management through safety teams, line management, or quarterly held safety committee meetings.

Social - Corporate Social Responsibility

Laurus Labs seeks to contribute to the well-being of the communities in which it operates and be a responsible corporation and good corporate neighbour.

Adoption of government schools

Laurus Labs signed a Memorandum of Understanding (MoU) with the state of Andhra Pradesh to adopt 359 schools under Connect Andhra programme. Through this programme, Laurus Labs will develop these adopted schools with better infrastructure facilities.

LOVE ALL SERVE ALL

Promoting education

To boost industry-academic collaboration and promote student employability, Laurus Labs signed memorandums of understanding with Gitam University and Krishna University, both in Andhra Pradesh. We also encourage school children to develop a scientific temperament and curiosity, encouraging them to pursue science courses as part of their further education.

Science on Wheels

We continued our programme 'Science on Wheels,' a mobile laboratory with equipment to teach children science in a fun way through experiments, which is one of our outside-the-classroom activities. In and around Visakhapatnam, we regularly hold science fairs for children in government schools. Students in grades VI through X are taught by qualified instructors in the mobile van with the assistance of live models.

Blood donation camps

Every year, staff at our R&D site in Hyderabad volunteer to donate blood at blood donation camps. It is held on June 28th to commemorate our Founder and CEO, Dr. Satyanarayana Chava's birthday.

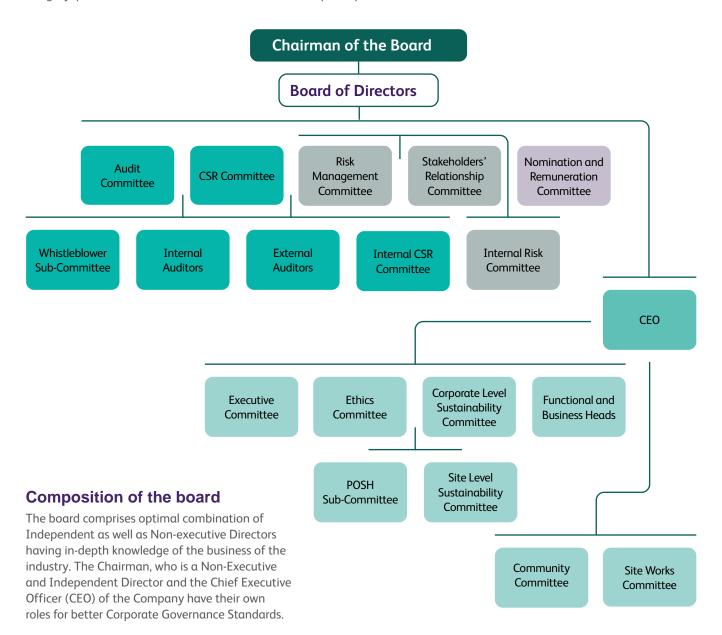

Governance

Integrity underpins our strategy

Corporate governance has always been the cornerstone of Laurus management process. With a decision-making process based on decentralisation, empowerment and meritocracy, we are committed to the business' fundamental objective of maximising shareholder value. Upholding high standards of ethics, integrity and sustainability is not just about complying with laws and regulations; it is about making a positive impact on society in everything we do.

Governance framework

Our approach to corporate governance and the role it plays goes well beyond meeting our compliance obligations. We believe that our governance framework fosters our high performing and respectful culture while underpinning our values of integrity, patient focus, collaboration, innovation and superior performance.

Skills & experience

Our Board of Directors provides oversight with respect to our strategic direction, overall performance, and key corporate policies. It approves major initiatives, advises on key financial and business objectives, and monitors progress with respect to these matters. Our Board is a diverse, highly engaged group of individuals that provides strong, effective oversight of the company. Both individually and collectively, our directors have the qualifications, skills, and experience needed to inform and oversee the company's long-term priorities.

Risk Management

A proactive and disciplined approach

We recognise that managing risk effectively is integral to executing our strategy. In order to deliver our strategy and achieve excellence through our business model, both operationally and financially, we must ensure we maintain the right balance between safeguarding against potential risks and taking advantage of potential opportunities. Our aim is to foster a culture of effective risk management by encouraging appropriate and monitored risk-taking in order to achieve the Group's strategic priorities.

Risk management framework

The Company's Board of Directors has the overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established a Risk Management Committee, which is responsible for developing and monitoring the Group's risk management policies. The Committee reports regularly to the Board of Directors on its activities.

The risk management policies are established to identify and analyse the risk faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to

limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Company's Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by the internal audit team. The Internal audit team undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Management discussion and analysis

1. Economy review

1.1 Global economy

2021 has been another difficult year owing to the continuing and pervasive impact of COVID-19, especially with the advent of new variants caused significant challenges. Supply side constraints disrupted financial markets and businesses. Central banks proposed an array of measures to ensure credit was available to businesses and individuals. Large-scale vaccination drives around the world, coupled with accommodative policy measures, boosted economic recovery.

However, many low-income, emerging economies continue to struggle with the uncertainties unleashed by the pandemic. Rising supply chain disruptions, semiconductor shortages and the continued energy crisis have further worsened the situation. According to the International Monetary Fund (IMF) outlook as of January 2022, global growth is predicted to be 4.4% in 2022, down from 5.9% in 2021, and will further drop to 3.8% in 2023. But the forecast hinges upon improved health conditions induced by aggressive vaccination drives, coupled with the availability of advanced

and effective therapies. By the second quarter of 2022, the negative impact is expected to lessen, provided there are no fresh outbreaks.

Outlook

Despite the impact of the pandemic, the unprecedented collective policy efforts by governments and central banks, paired with the resilience and innovations of private enterprises, have helped minimise lasting economic, psychological and physical damage across the world. While the direction of the Russia-Ukraine crisis remains uncertain, its impact on the global economy will remain. In the near term, many governments will need to cushion the blow of higher energy prices, diversify energy sources and increase efficiency wherever possible. Full economic revival seems to be further away, but when businesses and governments work in tandem, across borders and disciplines, we will be able to weather this storm and come out stronger and more resilient by the end of it.

Particulars	Actual	Projections	
Particulars	2021	2022	202
World Output	6.1	3.6	3.0
Advanced Economies	5.2	3.3	2.
United States	5.7	3.7	2.
Eurozone	5.3	2.8	2.
Jαpαn	1.6	2.4	2.
United Kingdom	7.4	3.7	1.
Other Advanced Economies	5.0	3.1	3.
Emerging Market and Developing Economies	6.8	3.8	4.
China	8.1	4.4	5.
Indiα	8.9	8.2	6.

1.2 Indian economy

According to World Bank projections, India will continue to be the world's fastest-growing major economy in the medium term, from 2021 to 2024. According to the Economic Survey 2021-22, India's GDP will grow at a 9.2% in 2022, up from a negative growth rate the previous year. India's increased capital expenditure is expected to boost the economy. The Union Budget 2022-23 increased the Capex budget by 35.4% to 7.5 trillion, or nearly 2.9% of GDP. The IMF expects India's prospects for 2023 to improve as credit growth improves and, eventually, investment and consumption.

India's response to the pandemic has been agile and decisive, with the government providing safety nets for vulnerable sections, while responding iteratively with policy support.

Outlook

India's broad range of fiscal, monetary, and health responses to the crisis aided its recovery, and several economic reforms are assisting in mitigating the crisis's long-term negative impact. With a strong financial system and a conducive economic budget in place to support the economic revival, the country appears well-positioned for a pick-up in private sector investment.

Table: National Statistical Office's First Advanced Estimates (% change of Indian GDP over fiscal years)

2. Industry review

2.1 Global Pharma Industry

According to The Global Spending and Usage of Medicines, released by the IQVIA™ Institute for Human Data Science, global spending on medicines — based on invoice price levels — is expected to grow at 3-6% CAGR through 2026 to reach about \$1.8 trillion by 2026, including spending on COVID-19 vaccines and novel therapeutics.

The US market is forecast to grow by 0-3% CAGR over the next five years. Spending in the top five European markets is expected to increase by \$51 billion. China is expected to increase its uptake of new and original medicines (growing by \$35 billion by 2026), with spending in emerging markets likely to increase by \$128 billion.

Global spending on vaccines is predicted to grow at 12-15%, reaching \$46 billion in 2025. It is forecast that by 2026, specialty medicines will account for nearly 60% of total expenditure in high-income markets, with the remainder, predominantly older and traditional therapies, becoming progressively lower-cost over time. The two leading global therapy areas – oncology and immunology – are forecast to grow 9-12% and 6-9% CAGR respectively through to 2026, lifted by significant increases in new treatments and medicine use. It is expected that 100 more oncology treatments will come to market over five years.

COVID-19 vaccine spending: \$251 Bn (\$185-\$295Bn)

COVID-19 therapeutics: \$58 Bn (\$48-69Bn)

COVID-19 disruption impact: \$175 Bn 2020-2026

2.2 Active Pharmaceutical Ingredients (API) Industry

According to Research & Markets, the global active pharmaceutical ingredients (API) market is anticipated to grow with a CAGR of 6.08% over the forecast period, i.e. 2021-30. The market is estimated to garner a revenue of \$ 330 billion by the end of 2030, up from a revenue of around \$185 billion in the year 2020.

The rising number of generic drug approvals, followed by rising demand for generic and biosimilar drugs, and rising healthcare expenditure are expected to drive market growth in the coming years. Furthermore, factors such as the rising prevalence of chronic diseases worldwide, which is driving the need for pharmaceutical drug manufacturers to develop advanced medicines to treat these diseases, are expected to drive the demand for active pharmaceutical ingredients (APIs) in the coming years, contributing to the market's growth.

Laurus opportunity landscape

The increased adoption of healthcare services has benefited the global APIs market significantly. The rising accessibility to affordable healthcare services has increased the demand for cost effective and high-quality medicines. Consequently, the need for cost effective and high-quality APIs is increasing for manufacturing finished drugs. Some of the key factors that are driving the market include the increasing prevalence of infectious diseases, cardiovascular conditions, and other chronic disorders.

2.3 Generics Market

According to Mordor Intelligence, the generic drugs market was valued at \$364.93 billion in 2021, and it is expected to reach \$468.79 billion by 2027, registering a CAGR of 4.27% during the forecast period of 2022-27.

COVID-19 severely impacted the generic drugs market during the early pandemic due to the lockdown restrictions and supply chain disruption. Later, there was increased demand for generic pharmaceuticals as the COVID-19 infections provided many opportunities for generic drug manufacturers to manufacture the drugs to treat this infection. The Food and Drug Administration received 121 requests for product development and pre-submission pre-abbreviated New Drug Application meetings in 2020. Increasing frequency of chronic diseases among the population along with increasing initiatives by the regulatory bodies to control them in the countries of the region is a main driver growth of the APAC.

Laurus opportunity landscape

Laurus currently supplies APIs to top 10 largest generic pharmaceutical companies and has an advantage in backward integration and due to significant investments in capacity. Laurus has filed 73 DMFs and 184 patents have been granted as on March 31, 2022.

2.4 Antiretroviral (ARV) market

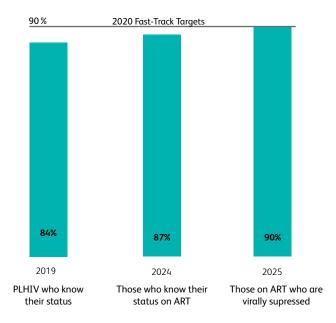

The global HIV drugs market is expected to grow from \$31.23 billion in 2021 to \$33.39 billion in 2022 at a compound annual growth rate (CAGR) of 6.9%. The change in growth trend is mainly due to the companies stabilising their output after catering to the demand that grew exponentially during the COVID-19 pandemic in 2020. The market is expected to reach \$40.32 billion in 2026 at a CAGR of 4.8%. North America was the largest region in the HIV drugs market in 2021. Middle East is expected to be the largest growing region in the forecast period.

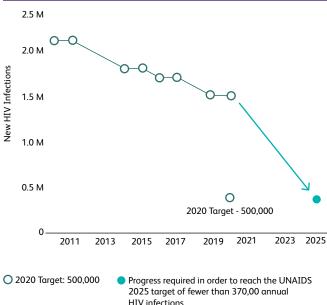

The corona virus accelerated the growth of the global HIV drug market. Viral medications are being repurposed to treat COVID-19 infections. Raising public awareness about the diagnosis and treatment of HIV disease is a key driver of the HIV drug market's expansion. HIV / AIDS is one of the most chronic diseases, and the disease's high prevalence in almost every part of the world has resulted in unprecedented public awareness of the disease.

90%

of the largest generic pharmaceutical companies source their APIs from Laurus

Progress on HIV treatment – moving to 95-95-95 target

Source: 2021 Clinton Health Access Initiative HIV Market Report & WHO

Market drivers

- Growing occurrence rate of HIV, COVID-19 and other infectious diseases will boost the market demand
- High investment in research and development activities by major industry players will stimulate the market value
- Rising awareness and government initiatives in emerging nations for availability of advanced treatment therapies for sexually transmitted diseases will bolster the business expansion.
- Increasing product approvals to combat infectious disease burden will fuel the industry landscape
- The COVID-19 pandemic has positively influenced the market forecasts. Sudden surge in demand for effective medicines for coronavirus treatment will stimulate the market statistics.

According to WHO, 26 million people were diagnosed with HIV / AIDS in 2020, whereas 36.3 million people died of AIDS related illness at the end of 2019. The federal government agencies, and various associations across the globe have introduced many initiatives and education campaigns for community awareness to address HIV prevention, treatment, and care.

Laurus opportunity landscape

Being the cost leader in many ARV APIs, Laurus is best placed to garner attractive market share in ARV APIs and FDF tender market. Large scale, improved manufacturing processes has been the key factors in making Laurus the preferred API supplier in the ARV segment. At present, Laurus is supplying to 80% of the players who participate in ARV tenders. Being a fully integrated player gives Laurus the advantage to have superior margin profile as against non -integrated players.

2.5 CRAMS industry

According to Visiongain analysis, global pharmaceutical contract manufacturing market was valued at \$115.8 billion in 2021, and is projected to reach \$329.7 billion in 2032, registering a CAGR of 10.1% from 2022 to 2032. Europe Pharmaceutical Contract manufacturing market was the highest contributor to the global market generating \$43.9 billion in 2021, and is projected to reach \$113.9 billion in 2032, registering a CAGR of 9.1% from 2022 to 2032.

Factors such as rising R&D budgets and rising outsourcing activities from pharmaceuticals along with rising collaborative efforts will boost the growth of the market during the forecast period. Additionally, increased investment opportunities by pharmaceutical, biopharmaceutical, and medical device companies will increase the footprint of the market.

Laurus opportunity landscape

Laurus is uniquely positioned to work with customer needs at any stage of the product lifecycle. With over 250 scientists to provide process chemistry services to global clients, our CDMO division is well positioned to offer development and manufacturing service across the value chain from preclinical to lifecycle management. Laurus has created a wholly-owned subsidiary - Laurus Synthesis Pvt Ltd to increase its focus and dedicated R&D and two manufacturing site construction started to provide scale and flexibility for this divison.

2.6 Nutraceutical Market

The Global Nutraceuticals Market is estimated to be \$224.56 billion in 2021 and is expected to reach \$365.45 billion by 2026, growing at a CAGR of 10.23%. The key factor driving the market demand for fortified food is a survey conducted in the U.S. on which 89%. of consumers agreed that fortified

food has health benefits beyond their primary nutrition. It helps in increasing health consciousness amongst consumers. Rising nutritional enrichment awareness in China and India is expected to keep the nutraceuticals industry growing.

The Indian nutraceutical ecosystem is expanding at a rapid pace, combining the disruptive potential of scientific discoveries with the growing popular demand for clean foods that add value to overall health. Nutraceuticals are being used more and more to support and develop immunity, bone health, heart and brain health, mental wellness, and overall physical wellness.

Laurus Opportunity Landscape

Laurus Labs has been at the forefront in developing and manufacturing pure, well-characterised specialty ingredients in nutraceutical/dietary supplements and cosmeceutical product segments. Our key strength lies in the development of alternate low-cost synthetic routes for typically naturally derived nutraceutical products. Patented combinations of nutraceuticals and pharmaceuticals may create rewarding business opportunities, going forward.

2.7 Biotechnology Industry

The global biotechnology services market is expected to grow from \$129.14 billion in 2021 to \$151.10 billion in 2022 at a compound annual growth rate (CAGR) of 17.0%. The market is expected to reach \$267.29 billion in 2026 at a CAGR of 15.3%. Asia Pacific was the largest region in the biotechnology services market in 2021. North America was the second largest region in biotechnology services market.

The increasing pervasiveness of conditions like hepatitis B, diabetes and cancer is driving the research in biotechnology. Biotechnology uses research tools from biology and chemistry to study the genetic material of bacteria and viruses to check the disease-producing agent. Oncology research is most prominent among biopharma companies.

2.8 Indian pharma industry

In the global pharmaceuticals sector, India is a significant and rising player. India is the world's largest supplier of generic medications, accounting for 20% of the worldwide supply by volume and supplying about 60% of the global vaccination demand. The Indian pharmaceutical sector is worth \$42 billion and ranks 3rd in terms of volume and 13th in terms of value worldwide. India is one of the highest exporters among pharma dominated countries as the exports stood at \$24.44 billion in 2020-21 and \$22.21 billion in 2021-22.

As of August 2021, CARE Ratings expect India's pharmaceutical business to develop at an annual rate of ~11% over the next two years to reach more than \$60 billion in value.

\$42 Billion

Indian pharmaceutical sector size

Outlook

The Indian pharmaceutical industry has made significant contributions to the country's healthcare and economic outcomes. The pandemic has created new opportunities as well as new challenges for the industry. To emerge as a winner in the post-pandemic world, the industry must continue to build on its strengths while also making a giant leap toward innovation. To bring skills and help industry move up the value chain, new capabilities must be introduced across business functions. The government must also provide the necessary enablers and a favourable business environment for growth.

3. Company overview

Laurus Labs is a leading developer and manufacturer of generic Active Pharmaceutical Ingredients (APIs) with a focus on products where it has cost leadership led by innovation in process chemistry and manufacturing efficiencies. Apart from manufacturing APIs, it develops and manufactures oral solid formulations, provides CRAMS services to several global pharmaceutical companies, and also produces specialty ingredients for nutraceuticals, dietary supplements, and cosmeceuticals companies. Laurus forayed into biotechnology achieved through investment made in Richcore by acquiring a majority equity. Laurus Bio will grow significantly in the long-term and would play a key role in the manufacture of recombinant food proteins.

2021-22 business highlights

- Cumulatively filed 30 ANDAs in US with 14 PARA IV filings and 10 FTF opportunities
- Brownfield expansion to add significant capacity should be operational by beginning of 2022-23
- Filed 315 patents out of that 184 patents granted as of March 31, 2022
- Expansion in CDMO capability on track to include new opportunities and extended service
- Greenfield investment to set up a dedicated R&D centre and manufacturing units is progressing as per our expectations

Strategy

Short-term strategy

- Leverage API cost advantage and diversification into Non-ARV APIs and formulations
- Develop the synthesis business
- Invest in fermentation capacity expansion at Laurus Bio
- ESG integration

Long-term strategy

Agile organisation by concentrating on key business enablers

Business

- Proactive portfolio de-risking, enhanced procurement and operational efficiency
- Integrating & leveraging Richcore acquisition
- Widen technology portfolio and access new market opportunities
- Strengthen position with Big Pharma and market share gains in ARV portfolio
- Focus on talent attraction to support new growth projects

Capital

- Strong Balance sheet and Liquidity to weather unanticipated market conditions
- Committed to efficient capital allocation strategy to build value in long run

Regulatory and compliance

- Maintain compliance and quality leadership
- Continued review of environmental, social and governance (ESG) measures under expanded leadership

4. Research and development

Laurus Labs' Research & Development (R&D) is an everevolving centre for excellence and reinforces its belief in innovation and quality to magnify the Company's business aspiration. The focus of our R&D is to enhance innovation, process efficiency and manufacturing effectiveness in compliance with Laurus Labs core values and support the execution of business strategies. R&D supports the activities of our various businesses by developing breakthrough technologies in new products, process chemistry, analytical chemistry, process intensification and establishing technologies at commercial scale. We have a highly experienced team of dedicated scientists focusing on development of variety of niche generic products across the spectrum of available dosage formulation technologies.

- R&D team comprising of 652 scientists (12.29% of total employee strength) including over 41 PhDs
- Kilo Lab at R&D centre accredited by global regulatory agencies

5. Quality and compliance

We follow the philosophy of "One quality Standard for all markets". We have established a well-defined validation and qualification structure to ensure that systems, facilities and processes are designed and developed in line with the needs of customers and to comply with regulatory requirements. Quality risk management procedures are established and followed for internal audits, failure inquiries and implementation of permanent corrective measures.

We have also established training procedures and systems for the training and development of our employees with respect to regulatory guidance, new developments and internal procedures. We continue to improve our quality systems to ensure compliance with ever evolving regulations. We always strive to stay ahead of the curve to ensure compliance with regulations and meeting patient needs.

6. Outlook

Going ahead, we have charted out our growth trajectory, spanning across APIs in the non-ARV space, fortifying position in the formulations and CDMO segments and tapping the new area of biologics (through Laurus Bio). We are looking to build in new capacities/facilities which would be the key factor for the growth in coming years.

7. Financial review

Consolidated abridged Profit & Loss Statement

			(₹ crore)
Year	2021-22	2020-21	Growth (%)
Net Sales	4,936	4,814	3%
EBITDA	1,436	1,573	9%
PBT	1,084	1,301	(17)%
PAT	828	984	(16)%

Revenue from operations (net)

Revenue from operations increased by 3% to ₹4,936 crore in 2021-22. Revenues grew at moderate 3% but delivered strong mix improvement led by significant progress in Non-ARV business, especially CDMO-Synthesis

Material Costs

Raw materials consumed maintained at 54.6% in 2021-22, against 54.2% in 2020-21. We are able to maintain the raw materials consumptions mainly due to better product mix, backward integration for some of key starting materials and better yields.

Employee Expenses

People-related expenses increased to ₹502 crore in the financial year 2021-22 from ₹434 crore in the year 2020-21. This increase was due to increase in employee strength of more than 900 comparing to financial year 2020-21.

Other Expenses

Other expenses include other operating expenses, marketing, R&D and administrative expenses stood at ₹818 crore in the financial year 2021-22 against ₹671 crore in the year 2020-21. As a per cent of revenue, other expenses are at 17% as compared to 14% in previous year.

Margins

The Company has able to maintain its margins despite of increase in R&D costs, with EBIDTA and net margins stood at 29% and 17% respectively in 2021-22 compared to 33% and 20% respectively in 2020-21.

Company's Affairs:

(i) Operations:

The year 2021-22, is also a another challenging year due to the outbreak of the Second and third wave of COVID-19. Even during these difficult times, your Company could be able to maintain its performance similar to the previous year. During the year under review, the Turnover of your Company increased from ₹4,814 crore to ₹4,936 crore which is around 3% growth but delivered strong mix improvement led by significant progress in Non-ARV business, especially CDMO-Synthesis business. This division has grown by 77% contributing 19% of total revenues this year as against 11% contribution of total revenues of previous year.

During the year under review –

- The FDF Division which has started its commercial operations three years ago, has achieved a record growth and contributed a turnover of ₹1,880 crore.
- The Synthesis division also achieved its all time high growth and contributed a turnover of ₹917 crore.
- Bio division Recorded ₹100 crore turnover and improved materially over pre-acquisition annualised run-rate.
- The Company has also signed an agreement with MPP (Medicine Patient Pool) to manufacture Molnupiravir, oral COVID-19 antiviral medication.
- The Company received purchase orders from a leading Global Life Sciences Company which is material order in terms of our materiality policy.
- Fixed Assets of the Company have been increased by more than ₹900 crore.
- The Company has added 1 billion units capacity in its Formulation Unit by undertaking debottlenecking of existing facility and added new block for 4 billion units capacity.

- The Company has acquired lands for two API manufacturing units in Visakhapatnam and one land parcel in Hyderabad for further expansion and its 100% subsidiary LSPL has acquired two land parcels for manufacutring in Visakhapatnam and one land parcel for its R&D facility in Hyderabad.
- The Company has spent ₹202 crore on its R&D which is 4% of total sales. The Company has also filed 12 DMFs during the year.
- 106 Customers audits have been completed successfully during the year; and 44 site audits have also been completed successfully by international health authorities including USFDA, WHO Geneva, ANVISA Brazil since 2018.
- The Company has acquired 26.62% of stake in Immunoadoptive Cell Therapy Private Limited on fully diluted basis, with around ₹46 crore investment, and has has paid the subscription amount of ₹27.60 crore (Rupees Twenty-Seven crore and Sixty lakh only) as "Tranche 1 Subscription Amount" on December 9, 2021.

(ii) COVID-19

Your Company supported colleagues and their families, society and Government bodies during these tough times.

A thorough thermal scanning and sanitisation protocols were continued during the year at all the plants and offices. Monitoring of employees for signs and symptoms through voluntary disclosure was continued. Additional buses provided to maintain physical distance. Work from home facility was provided wherever possible to maintain lean staff in the work area.

Your Company is committed to support the Government and other authorities to extend its helping hand in the fight against COVID-19 pandemic.

(iii) Outlook:

Business prospects may remain positive because of the growing global demand for generics and opportunities provided by the expiry of patents in developed markets. Customs Synthesis division of your Company is expected maintain similar growth in FY2023 as well. Post COVID-19, there are new business opportunities for the pharmaceutical industry, in particular, our Company. But, of course, there are challenges too in logistics, supply chain management etc. due to extensive lock downs because of Covid impact in China and other parts of the world.

Management Discussion & Analysis:

Various business aspects including market conditions, business opportunities, challenges etc. have been discussed at length in the Management's Discussion and Analysis (MD&A), which forms part of this Annual Report.

Dividend:

Your directors are pleased to inform you that the Board has declared the 1st interim dividend @ 40% (i.e. ₹0.80 per share of the face value of ₹2/- each) and paid to the Shareholders in November, 2021 and the 2nd Interim dividend @ 60% (i.e. ₹1.20 per share of the face value of ₹2/- each) and being paid to the shareholders in May, 2022 aggregating to 100% dividend i.e. ₹2/- per share of the face value of ₹2/- each relating to the FY2022.

Transfer to Reserves:

Your Company did not transfer any portion of profits to Reserves.

Share Capital:

NSN Holdings represented by its Managing Partner Dr. Satyanarayana Chava and as a result M/s. NSN Holdings has been inducted as the Promoter of the Company. All the required compliances as per SEBI SAST Regulations have been duly complied in this regard.

Change in the nature of the business, if any:

There is no change in the nature of the business of the Company or any of its subsidiaries or associates, during the year under review. However, the Company has acquired 26.62% of stake in Immunoadoptive Cell Therapy Private Limited on fully diluted basis, with around ₹46 crore investment, and has has paid the subscription amount of ₹27.60 crore (Rupees Twenty-Seven crore and Sixty lakh only) as "Tranche 1 Subscription Amount" on December 9, 2021. The promoters of your Company, namely Dr. Satyanarayana Chava, Mr. V. V. Ravi Kumar and Dr. Lakshmana Rao C V have also invested in this company in their personal capacity as well.

This company is in to research and providing of CAR-T therapy to the cancer patients which is very successful and the terminally ill patients have been recovered and survived during the trials undertaken by this company.

The investment in ImmunoACT is part of the larger strategy to strengthen biologics business of the Company and this provides us access and entry into an emerging field of research. CAR-T therapy is very promising treatment option which has had great success in the western part of the world. In India, CAR-T therapy is not available and this collaboration will help us in bringing this novel technology to the Indian cancer patients at a very affordable pricing.

Material Changes and commitments, affecting the financial position of the Company:

There are no material changes and commitments affecting the financial position of the Company that have occurred between the end of the financial year of the Company to which the financial statements relate and the date of the Report i.e. between March 31, 2022 to April 28, 2022.

Form No. MR-3

SECRETARIAL AUDIT REPORT

For the Financial Year ended March 31, 2022

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To.

The Members.

M/s. LAURUS LABS LIMITED

Plot No.21, Jawaharlal Nehru Pharma City, Parawada, Visakhapatnam, Andhra Pradesh – 531 021.

We have conducted the Secretarial Audit on the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s. **Laurus Labs Limited** (hereinafter referred as the "**Company**"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of Secretarial Audit, the explanations and clarifications given to us and the representations made by the Management, we hereby report that in our opinion, the Company has, during the audit period covering the Financial Year ended on **March 31, 2022**, (i.e. from April 1, 2021 to March 31, 2022) complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

The Company is carrying on the business of offering broad and integrated portfolio of Active Pharmaceutical Ingredients (API) including intermediates and Contract Research Services and Finished Dosage Forms (FDFs) to cater to the needs of the global pharmaceutical industry.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company to the applicable extent for the financial year ended on March 31, 2022 according to the provisions of:

- A. The Companies Act, 2013 (the "Act") and the rules made thereunder;
- B. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- Foreign Exchange Management Act, 1999 and the Rules and Regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- E. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') to the extent applicable to the Company:-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

- (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 and amendments from time to time:
- (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 and amendments from time to time;
- (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
- (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 (Not applicable to the Company during the financial year);
- (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 2018 regarding the Companies Act and dealing with client;
- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2018 (Not applicable to the Company during the financial year);
- (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 (Not applicable to the Company during the financial year).
- F. The Memorandum and Articles of Association.
- G. The Company has identified and confirmed the following laws as specifically applicable to the Company.
 - (a) Drugs (Control) Act, 1950
 - (b) Drugs and Cosmetics Act, 1940 and the Drugs and Cosmetics Rules, 1945
 - (c) Narcotic Drugs and Psychotropic Substances Act, 1985
 - (d) The Food Safety and Standards Act, 2006
 - (e) The Indian Boilers Act, 1923

We have also examined compliance with the applicable clauses/ regulations of the following:

- Secretarial Standards issued by The Institute of Company Secretaries of India (ICSI);
- (ii) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Listing Agreements entered into with BSE Limited and National Stock Exchange of India Limited.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

We further report that, having regard to the compliance system prevailing in the Company and on examination of relevant documents and records in pursuance thereof, on test check basis, the Company has complied with all the applicable laws.

We further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act/Listing Agreement.

Adequate notice is given to all directors to schedule the board meetings, agenda and detailed notes on agenda were sent in advance as required, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All the decisions at Board Meetings and Committee Meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committee of the Board, as the case may be. We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the financial year the Company had following events which had bearing on the Company's affairs in pursuance of the above referred Laws, Rules, Regulations, Standards etc.,

 The Company acquired 26.62% of stake in M/s. Immunoadoptive Cell Therapy Private Limited on fully diluted basis, with around ₹46 crore investment, and has paid the subscription amount of ₹27.60 crore (Rupees Twenty-Seven crore and Sixty lakh only) as "Tranche 1 Subscription Amount" on December 9, 2021.

- 2. The Step-down subsidiary of the Company M/s. Laurus Ingredients Private Limited got voluntarily struck off from the Register of Companies, Hyderabad.
- The Company has got the allotment of 15 acres of land by APIIC at Parawada, Visakhapatnam for its Bulk Drug Manufacturing plant.
- 4. The Company has got the allotment of 40.87 acres of land by APIIC at Atchutapuram, Visakhapatnam for its Bulk Drug Manufacturing plant.
- 5. The Company has infused further capital of USD 2 million into M/s. Laurus Generics Inc., USA
- The Company has issued and allotted 6,03,575 and 1,53,375 equity shares of ₹2/- each to the eligible employees during December, 2021 under ESOP Schemes 2016 & 2018 respectively.

Service Contracts, Severance Fee: Nil Notice Period for Executive Directors: 3 months Stock Options details, if any: Nil

Nomination/Remuneration Policy:

The compensation of the Executive Directors comprises of fixed component, perquisites and performance based incentive and is determined based on the remuneration prevailing in the industry and the performance of the Company. The remuneration package of the Executive Directors is periodically reviewed and suitable revision is recommended to the Board by the Nomination and Remuneration Committee. The Board shall recommend the same for the approval of the Shareholders.

The nomination and remuneration policy as adopted by the Board is placed on the Company's website at:

http://www.lauruslabs.com/sites/all/themes/lauruslab//Investors/PDF/Policies/Remuneration_Policy.pdf

Performance Evaluation Criteria for Independent Directors:

The performance evaluation is done on an annual basis by the Board of Directors of the Company.

On the basis of the report of performance evaluation, it is determined by the Board whether to extend or continue the term of appointment of Independent Director subject to all other applicable provisions.

Independent Directors Meeting:

Schedule IV of the Companies Act, 2013 and the Rule thereunder mandate that the independent directors of the Company hold at least one meeting in a year, without the attendance of non-independent directors and members of the Management. It is recommended that all the independent directors of the Company be present at such meetings.

Independent Directors meeting was held on March 11, 2022 and all the Independent Directors attended the meeting.

Disclosure of Board Evaluation:

The Performance Evaluation has been carried out for:

- (i) The board as a whole,
- (ii) Individual directors (including Independent Directors and chairperson) and
- (iii) Various committees of the board.

Previous year's observations and actions taken:

There are no observations and actions pending to be taken by the Company and the Board is satisfied with all the processes being followed by the management and is hopeful in continuing the same good governance practices in the Company.

For this year, there was one suggestion given by the Nomination and Remuneration Committee, which would be implemented by the Management of the Company in due course of time.

Shareholders

46 (2)(b) to (i)	Functional Website	Yes

Code of Conduct:

In compliance with Regulation 26(3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015 and the Companies Act, 2013, the Company has framed and adopted a Code of Conduct policy. The Code is applicable to the members of the Board, the executive officers and all employees of the Company and its subsidiaries. The Code is available on our website http://lauruslabs.com/Investors/PDF/Policies/Code_of_Conduct_Policy.pdf

All members of the Board, the executive officers and senior financial officers have affirmed compliance to the Code as on March 31, 2022.

Prevention of Insider Trading:

The Company has adopted an Insider trading Policy to regulate, monitor and report trading by insiders under the SEBI (Prohibition of Insider Trading) Regulations, 2015. This policy includes practices and procedures for fair disclosure of unpublished price-sensitive information, initial and continual disclosure. The Board reviews the policy on a need basis. The policy is available on our website

http://lauruslabs.com/Investors/PDF/Policies/CodeForProhibitionOfInsiderTrading.pdf

CEO and CFO Certification:

As required by SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015, the CEO & CFO certification is provided in this Annual report as Annexure-C.

Auditors' Certificate on Corporate Governance

As required by Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015, the Certificate on Corporate Governance issued by practising Company Secretary is annexed to the Board's report as **Annexure-D**.

Declaration

I, Dr. Satyanarayana Chava, Chief Executive Officer, hereby declare that as provided under SEBI (LODR) Regulations, 2015, the Board Members and the senior management personnel have confirmed compliance with the Code of Conduct for the year ended March 31, 2022.

To,

The Board of Directors

Laurus Labs Limited

We, Dr. Satyanarayana Chava, CEO and Mr. V. V. Ravi Kumar, CFO hereby certify as under:

- A. We have reviewed financial statements and the cash flow statement for the year ended March 31, 2022 and that to the best of our knowledge and belief:
 - (1) These statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading;
 - (2) These statements together present a true and fair view of the Company's affairs and are in compliance with existing Accounting Standards, applicable laws and regulations.
- B. To the best of our knowledge and belief, no transactions entered into by the Company during the year ended March 31, 2022 are fraudulent, illegal or violative of the Company's Code of Conduct.
- C. We accept responsibility for establishing and maintaining internal controls for financial reporting and we have evaluated the effectiveness of internal control systems of the Company pertaining to financial reporting. Deficiencies in the design or operation of such internal controls, if any, of which we are aware have been disclosed to the auditors and the Audit Committee and steps have been taken to rectify these deficiencies.
- D. (1) There have not been any significant changes in internal control over financial reporting during the year;
 - (2) There have not been any significant changes in accounting policies during the year requiring disclosure in the notes to the financial statements; and
 - (3) We are not aware of any instances during the year of significant fraud with involvement therein of the management or an employee having a significant role in the Company's internal control system over financial reporting.

Thanking you

ANNEXURE -D

Certificate on Corporate Governance

To,

The Members of

M/s. LAURUS LABS LIMITED

Plot No.21, Jawaharlal Nehru Pharma City,

Parawada, Visakhapatnam, Andhra Pradesh – 531 021.

We have examined the compliance conditions of Corporate Governance by M/s. **Laurus Labs Limited** for the financial year ended March 31, 2022, as stipulated in the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ["SEBI (LODR) Regulations, 2015"] and the Uniform Listing Agreement entered between the Company & Stock Exchanges.

The compliance of conditions of Corporate Governance is the responsibility of the Company's management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our knowledge and according to the explanations given to us, we certify that the Company has complied with the conditions of applicable Corporate Governance as stipulated in the above mentioned SEBI (LODR) Regulations, 2015 and the Uniform Listing Agreement.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Nil

4. Did your Company carry out any consumer survey/consumer satisfaction trends?

Nο

Independent Auditor's Report

To The Members of **Laurus Labs Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Laurus Labs Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

No. Key Audit Matter

Revenue recognition - Refer note 17 of the standalone financial statements

The Company recognises revenue from products based on the terms and conditions of transactions which varies with different customers.

For sale transactions in a certain period of time around the Balance Sheet date, it is essential to ensure that the control of goods have transferred to the customers. As revenue recognition is subject to management's judgement on whether the control of the goods have been transferred, we consider cut—off of revenue as a key audit matter.

Auditor's Response

Principal audit procedures performed:

We obtained an understanding of the revenue recognition process and tested the Company's controls around the timely and accurate recording of sales transactions.

We have obtained an understanding of a sample of customer contracts.

We tested the access and change management controls of the relevant information technology system in which shipments are recorded.

Our test of revenue samples focused on sales recorded immediately before the year-end, obtaining evidence to support the appropriate timing of revenue recognition, based on terms and conditions set out in sales contracts and delivery documents.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's report including annexures to Board's report, Report on Corporate Governance and Business Responsibility Report but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1. As required by Section 143(3) of the Act, based on our audit, we report, to the extent applicable that:
 - We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.

- The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv The Management has represented that, to the best of it's knowledge and belief, as disclosed in the note 42(vi) to the Standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The Management has represented, that, to the best of it's knowledge and belief, as disclosed in the note 42(vii) to Standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. (a) The first interim dividend declared and paid by the Company during the year and until the date of this report is in accordance with section 123 of the Companies Act 2013.

- (b) The second interim dividend declared by the Company during the year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to declaration of dividend. However, the said dividend was not due for payment on the date of this audit report.
- (c) The interim dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to payment of dividend.
- 2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Laurus Labs Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

Place: Hyderabad

Date: April 28, 2022

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

For Deloitte Haskins & Sells LLP

Annexure "B" to the Independent Auditor's Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that

- (a) A. The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, capital work-in-progress and relevant details of right-of-use assets.
 - B. The Company has maintained proper records showing full particulars of intangible assets.
 - (b) The Company has a program of verification of property, plant and equipment, capital work-in-progress and right-of-use assets so to cover all the items once in every 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain property, plant and equipment were due for physical verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) Based on our examination of the registered sale deed provided to us, we report that, the title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favor of the Company) disclosed in the financial statements included in property, plant and equipment, capital work-in-progress are held in the name of the Company as at the balance sheet date. Immovable properties of land whose title deeds have been pledged as security for Term loans and working capital limits are held in the name of the Company based on the confirmations directly received by us from lenders.

- (d) The Company has not revalued any of its property, plant and equipment (including right of use assets) and intangible assets during the year.
- (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) (a) The inventories (except for goods-in-transit, which have been received subsequent to the year-end) were physically verified during the year by the Management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.
 - (b) According to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of ₹ 5 crores, in aggregate, at points of time during the year, from banks on the basis of security of current assets. In our opinion and according to the information and explanations given to us, the quarterly returns or statements comprising stock statements, book debt statements, statements on ageing analysis of the debtors and other stipulated financial information filed by the Company with such banks are in agreement with the unaudited books of account of the Company of the respective quarters and no material discrepancies have been observed.
- (iii) The Company has made investments in, provided guarantee and granted unsecured loans to companies during the year, in respect of which:
 - (a) The Company has made investments in, provided/ stood guarantee and granted unsecured loans during the year and details of which are given below:

				(₹ in crores)
		Investments	Loans	Guarantees
A.	Aggregate amount granted / provided during the year:			
	- Subsidiaries	15.23	172.00	87.90
	- Associate	27.60	-	-
	- Others	-	0.63	-
В.	Balance outstanding as at balance sheet date in respect of above cases	:		
	- Subsidiaries	34.16	88.22	140.90
	- Associate	27.60	-	-
	- Others	-	0.53	-

The Company has not provided any advances in the nature of loans or security to any other entity during the year.

- (b) The investments made, guarantees provided and the terms and conditions of the grant of all the abovementioned loans during the year are in our opinion, prima facie, not prejudicial to the Company's interest.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are regular as per stipulation.
- (d) According to information and explanations given to us and based on the audit procedures performed, in respect of loans granted by the Company, there is no overdue

- amount remaining outstanding as at the balance sheet date.
- (e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
- (f) The Company has granted Loans to its subsidiaries which are repayable on demand details of which are given below:

		₹ crores
	All parties	Related
Aggregate of loans repayable on demand	88.22	88.22
Percentage of loans to total loans		99.40%

- (iv) The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made, guarantees, and securities provided, as applicable
- (v) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.

- (vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act, 2013. We have broadly reviewed the books of account maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended, prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Companies Act, 2013, and are of the opinion that, prima facie, the prescribed cost records have been made and maintained by the Company. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) (a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues applicable to the Company have generally been regularly deposited by it with the appropriate authorities in all cases during the year.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, and other material statutory dues in arrears as at March 31, 2022 for a period of more than six months from the date they became payable.

(b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2022 on account of disputes are given below:

Name of Statute	Nature of Dues	Amount (in ₹ crores)	Period for which the amount relates to	Forum where dispute is pending
Income-Tax Act, 1961	Income Tax	0.30^	AY 2015-16	Commissioner of Income Tax (Appeals)
AP VAT Act, 2005	Sales Tax	0.00^^	2014-2016	Sales Tax and VAT Appellate Tribunal, Andhra Pradesh
Finance Act, 1994	Service Tax	19.56*		Customs Excise and Service Tax
		15.23**	2015-2017	Appellate Tribunal
Customs Act, 1962	Customs Duty	15.38#	2012-13	_

[^]Net of ₹ 0.71 crores paid under protest

- (viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) (a) In our opinion, the Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
 - (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
 - (c) To the best of our knowledge and belief, in our opinion, term loans availed by the Company were, applied by the Company during the year for the purposes for which the loans were obtained.

- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or associate.
- (f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries or associate company.
- (x) (a) The Company has not issued any of its securities (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.

^{^^}Net of ₹ 0.36 crores paid under protest

^{*}Net of ₹ 0.37 crores paid under protest

^{**}Net of ₹ 0.61 crores paid under protest

[#]Net of ₹ 2.00 crores paid under protest

R

- (b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the order is not applicable to the Company.
- (xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
 - (b) To the best of our knowledge, no report under subsection (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
 - (c) As represented to us by the management, there were no whistle blower complaints received by the company during the year.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.
- (xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
 - (b) We have considered, the internal audit reports issued to the Company during the year and covering the period upto March 2022.
- (xv) In our opinion during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi)(a), (b) and (c) of the Order is not applicable.
 - (d) The Group does not have any core investment company as part of the group and accordingly reporting under clause (xvi)(d) of the Order is not applicable.

- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii)There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any quarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.
 - (b) In respect of ongoing projects, the company does not have any unspent corporate social responsibility (CSR) amount as at the end of the previous financial year and also at the end of the current financial year. Hence, reporting under this clause is not applicable for the year

G. Venkateswar Reddy Company Secretary

Notes to Financial Statements for the year ended March 31, 2022

(All amounts in crore rupees except for share data or as otherwise stated)

1. Corporate information

Laurus Labs Limited (the "Company") offers a broad and integrated portfolio of Active Pharma Ingredients (API) including intermediates, Generic Finished dosage forms (FDF) and Contract Research services to cater to the needs of the global pharmaceutical industry. The Company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India. The registered office of the Company is located at Plot no. 21, Jawaharlal Nehru Pharma City, Parawada, Vishakapatnam, Andhra Pradesh – 531 201, India. The Company is equipped with an Active Pharma Ingredients (API) manufacturing facilities situated in Jawaharlal Nehru Pharma City at Visakhapatnam, FDF drug manufacturing facility situated in Achutapuram and a Research and Development Centre in IKP Knowledge Park at Hyderabad.

These financial statements are authorised by the Board of Directors for issue in accordance with their resolution dated April 28, 2022.

2. Significant accounting policies

2.1 Basis of preparation

(a) The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ('Ind AS'), under the historical cost basis except for certain financial instruments which are measured at fair values at the end of each reporting period as explained in the accounting policies below, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

2.2 Summary of significant accounting policies

(a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading

- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(b) Foreign currencies

The financial statements are presented in Indian rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at its functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss.

(c) Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and

Notes to Financial Statements for the year ended March 31, 2022

best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's chief financial officer and the financial controller of the Company determines the appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where level 1 inputs are not available, the Company engages third party qualified valuers to perform the valuation. Any change in the fair value of each asset and liability is also compared with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(d) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates after taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company derives revenues primarily from manufacture and sale of

(All amounts in crore rupees except for share data or as otherwise stated)

Active Pharma Ingredients (API) including intermediates, Generic Finished dosage forms (FDF) and Contract Research services (together called as "Pharmaceuticals").

The following is summary of significant accounting policies relating to revenue recognition. Further, refer note no. 17 for disaggregate revenues from contracts with customers.

Sale of products

The Company recognises revenue for supply of goods to customers against orders received. The majority of contracts that company enters into relate to sales orders containing single performance obligations for the delivery of pharmaceutical products as per Ind AS 115. Product revenue is recognised when control of the goods is passed to the customer. The point at which control passes is determined based on the terms and conditions by each customer arrangement, but generally occurs on delivery to the customer. Revenue is not recognised until it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

Sale of services

Revenue from services rendered, which primarily relate to contract research, is recognised in the statement of profit and loss as the underlying services are performed. Upfront non-refundable payments received under these arrangements are deferred and recognised as revenue over the expected period over which the related services are expected to be performed.

Interest income

For all debt financial instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. Interest income is included in finance income in the Statement of Profit and Loss.

Dividends

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

(e) Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

Notes to Financial Statements for the year ended March 31, 2022

(All amounts in crore rupees except for share data or as otherwise stated)

Export incentives are recognised as income when the right to receive credit as per the terms of the scheme is established in respect of the exports made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

(f) Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income ("OCI") or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provision where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

Dividend distribution tax

Final Dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors. The entity recognised the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. The Finance Act, 2020 has repealed the Dividend Distribution Tax (DDT). The Company is now required to pay/distribute dividend after deducting applicable taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates.

(g) Property, plant and equipment

Under the previous GAAP (Indian GAAP), property, plant and equipment and capital wok in progress were carried in the balance sheet at cost of acquisition. The Company has elected to regard those values of property, plant and equipment as deemed cost at the date of the acquisition since there is no change in the functional currency as at April 01, 2015 (date of transition to Ind AS) on the date of transition to Ind AS. The Company has also determined that cost of acquisition or construction at deemed cost as at April 01, 2015.

Capital work-in-progress, property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied.

(All amounts in crore rupees except for share data or as otherwise stated)

All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance or extends its estimated useful life.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Factory buildings : 30 years

Other buildings : 60 years

Plant and equipment : 5 to 20 years

Furniture and fixtures : 10 years

Vehicles : 4 to 5 years

Computers : 3 to 6 years

The Company, based on technical assessment and management estimate, depreciates certain items of plant and equipment and vehicles over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(h) Intangible assets

Computer software

Costs relating to software, which is acquired, are capitalised and amortised on a straight-line basis over their estimated useful lives of five years.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognised as at April 01, 2015, measured as per

the previous GAAP, and use that carrying value as the deemed cost of such intangible assets.

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

(i) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Effective April 01, 2019, the Company adopted Ind AS 116 "Leases", applied to all lease contracts existing on April 01, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application.

Company as a lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Company recognises a Right-of-Use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

(All amounts in crore rupees except for share data or as otherwise stated)

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 40 A, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as restal income.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

(j) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(k) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost is determined on weighted average basis.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials: Materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Finished goods and work-in-progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity.
- Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Stores, spares and packing materials are valued at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(I) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are

prepared separately for each of the Company's CGUs to which the individual assets are allocated.

Impairment losses, including impairment on inventories, are recognised in the statement of profit and loss. An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior periods/years. Such reversal is recognised in the Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

(m) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(n) Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

(All amounts in crore rupees except for share data or as otherwise stated)

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund by a third party.

The cost of providing benefits under the defined benefit plan is determined based on projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to Statement of Profit or Loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, pastservice costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

The Company treats accumulated leaves which are to be settled after 12 months as a long-term employee benefit and accumulated leaves which are to be settled in the next 12 months as a short-term employee benefit for measurement purposes. Such accumulated leaves are provided for based on an actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

(o) Share-based payments

Employees of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments.

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using Black Scholes valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense.

(All amounts in crore rupees except for share data or as otherwise stated)

The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(p) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, a 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included

in finance income in the profit or loss. This category generally applies to trade and other receivables. For more information on receivables, refer to Note 9.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- a) the rights to receive cash flows from the asset have expired, or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
 - i. the Company has transferred substantially all the risks and rewards of the asset, or
 - the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, deposits and bank balances.
- b) Trade receivables that result from transactions that are within the scope of Ind AS 115.

The Company follows 'simplified approach' for recognition of impairment loss. The application of

simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For

recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition.

If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- · Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. On that basis, the Company estimates the following provision matrix at the reporting date:

Receivables past due	% of allowance
> 1 year and < 2 years	25 %
> 2 years and < 3 years	50%
> 3 years	100%

(All amounts in crore rupees except for share data or as otherwise stated)

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss ('FVTPL'), loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of Profit and Loss. The Group has not designated any financial liability as at fair value through profit and loss.

Loans and borrowings

This is the category most relevant to the group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss whenthe liabilities are derecognised as well as through the EIR amortisation process."

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated

as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The

(All amounts in crore rupees except for share data or as otherwise stated)

Company's senior management determines change in the business model as a result of external or internal changes which are significant to the group's operations. Such changes are evident to external parties. A change in the business model occurs when the group either begins or ceases to perform an activity that is significant to its operations. If the group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in Statement of Profit and Loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified to Statement of Profit and Loss at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(q) Investments in subsidiaries

In respect of equity investments, the entity prepares separate financial statements and account for its investments in subsidiaries at cost, net of impairment if any.

(r) Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The purchase contracts that meet the definition of a derivative under Ind-AS 109 are recognised in the Statement of Profit and Loss. Any gains or losses arising

from changes in the fair value of derivatives are taken directly to profit or loss.

Hedges of highly probable forecasted transactions

The Company classifies foreign currency forward contracts as derivative instruments in a cash flow hedging relationship to hedge foreign currency risk associated with highly probable forecasted transactions.

The use of foreign currency forward contracts is governed by the Company's policies, which provide written principles on the use of such derivatives consistent with the Company's risk management strategy. The Company does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract derivative instruments are remeasured at fair value at each reporting date. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised directly in cash flow hedge account in reserves and surplus as a component of equity and reclassified to the Statement of Profit and Loss as revenue in the period corresponding to the occurrence of the forecasted transactions. Ineffective portion of such derivatives is recognised immediately in Statement of Profit and Loss.

(All amounts in crore rupees except for share data or as otherwise stated)

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognised in other comprehensive income /(loss), remains in other comprehensive income until the forecast transaction occurs. If the forecast transaction is no longer expected to occur, then the balance in other comprehensive income/(loss) is recognised immediately in the Statement of Profit and loss.

Hedges of recognised assets and liabilities: Changes in the fair value of derivative contracts that economically hedge monetary assets and liabilities in foreign currencies, and for which no hedge accounting is applied, are recognised in the statement of profit and loss. The changes in fair value of such derivative contracts, as well as the foreign exchange gains and losses relating to the monetary items, are recognised in the Statement of Profit and Loss.

(s) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

(t) Research and development

Revenue expenditure on research and development is charged to the Statement of Profit and Loss in the year in which it is incurred. The Group does not generate any intangible asset internally.

(u) Measurement of EBITDA

The Company presents EBITDA in the Statement of Profit and Loss, which is neither specifically required by Ind AS 1 nor defined under Ind AS. Ind AS complaint Schedule III allows companies to present line items, sub-line items and sub-totals shall be presented as an addition or substitution on the face of the financial statements when such presentation is relevant to an understanding of the Company's financial position or performance or to cater to industry/sector-specific disclosure requirements or when required for compliance with the amendments to the Companies Act or under the Indian Accounting Standards.

(v) New standards and interpretations not yet adopted

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1, 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 - Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that the "cost of fulfilling" a contract comprises the "costs that relate directly to the contract". Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the "10 percent" test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 116 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

(All amounts in crore rupees except for share data or as otherwise stated)

Income exempt from income taxes under Section 10 AA	(339.11)	(363.59)
Others	(0.87)	(8.38)
Total (D)	(330.62)	(363.11)
Profit after adjusting permanent difference	644.79	911.52
Expected tax expense	225.32	318.52
Total Tax expense	225.32	318.52
Effective Tax rate	23.10 %	24.99%

(c) The details of component of deferred tax assets are given under note 6.

(All amounts in crore rupees except for share data or as otherwise stated)

28. Gratuity

Defined benefit plans

The Company has a defined benefit gratuity plan and governed by Payment of Gratuity Act, 1972. Every employee who has completed five years or more of service is entitled to a gratuity on departure at 15 days salary for each completed year of service. The scheme is funded through a policy with SBI Life Insurance Company Limited. The following tables summarise net benefit expenses recognised in the Statement of Profit and Loss, the status of funding and the amount recognised in the Balance sheet for the gratuity plan:

	Particulars	March 31, 2022	March 31, 2021
A)	Net employee benefit expense (recognised in Employee benefits expenses)		
	Current service cost	7.26	6.38
	Interest cost	2.90	1.92
	Expected return on plan assets	(0.08)	(0.01)
	Net employee benefit expenses	10.08	8.29
	Actual return on plan asset	(0.03)	(0.01)
B)	Amount recognised in the Balance Sheet		
	Defined benefit obligation	50.34	42.53
	Fair value of plan assets	1.13	0.92
		49.21	41.61
C)	Changes in the present value of the defined benefit obligation		
	Opening defined benefit obligation	42.53	28.94
	Current service cost	7.26	6.38
	Interest cost	2.90	1.92
	Benefits paid	(1.12)	(1.29)
	Net actuarial (gains)/losses on obligation for the year recognised under OCI	(1.23)	6.58
	Closing defined benefit obligation	50.34	42.53
D)	Change in the fair value of plan assets		
	Opening fair value of plan assets	0.92	0.21
	Actual return on plan assets	0.03	0.01
	Contributions	1.30	1.99
	Benefits paid	(1.12)	(1.29)
	Closing fair value of plan assets	1.13	0.92

The Company expects to contribute ₹5.97 to the gratuity fund in the next year (March 31, 2021: ₹3.87) against the short-term liability of ₹5.97 (March 31, 2021: ₹3.87) as per the actuarial valuation.

The major categories of plan assets as a percentage of the fair value of total plan assets are as follows:

Particulars	March 31, 2022	March 31, 2021
Investments with SBI Life Insurance Company Limited	100.00 %	100.00%

E) Remeasurement adjustments:

Particulars	March 31, 2022	March 31, 2021
Financial loss/(gain) on plan assets	1.23	(6.58)
Remeasurement gains/(losses) recognised in other comprehensive income:	1.23	(6.58)

i) The principal assumptions used in determining gratuity for the Company's plans are shown below:

Particulars	March 31, 2022	March 31, 2021
Discount rate	7.35 %	6.90 %
Expected rate of return on assets	7.35 %	6.90%
Salary rise	11.00 %	11.00%
Attrition rate	14.00%	13.00%

The estimates of future salary increases, considered in the actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The overall expected rate of return on assets is determined based on the actual rate of return during the current year.

(All amounts in crore rupees except for share data or as otherwise stated)

(ii) Disclosure related to indication of effect of the defined benefit plan on the entity's future cash flows:

Expected benefit payments for the year ending:

Year ending	March 31, 2022	March 31, 2021
Year 1	5.97	4.41
Year 2	5.57	4.21
Year 3	5.54	4.27
Year 4	5.68	4.29
Year 5	5.40	4.36
Beyond 5 years	21.06	20.08

The average duration of the defined benefit plan obligation at the end of the reporting period is 26.01 years (March 31, 2021: 26.04 years).

(iii) Sensitivity analysis:

A quantitative sensitivity analysis for significant assumption is as shown below:

Particulars	March 31, 2022	March 31, 2021
(a) Effect of 1% change in assumed discount rate on defined benefit obligation		
- 1% increase	(3.11)	(2.85)
- 1% decrease	3.43	3.25
(b) Effect of 1% change in assumed salary escalation rate on defined benefit obligation		
- 1% increase	3.07	2.88
- 1% decrease	(2.96)	(2.69)
(c) Effect of 1% change in assumed attrition rate on defined benefit obligation		
- 1% increase	(0.59)	(0.61)
- 1% decrease	0.58	0.68

(iv) Defined contribution plan

Particulars	March 31, 2022	March 31, 2021
Contribution to Provident Fund	19.20	16.00
Contribution to Superannuation Fund	2.05	1.81

29. Share based payments

ESOP 2011 Scheme

The board of directors/compensation committee has approved the Laurus Employees Stock Option Scheme(ESOP) 2011 for issue of stock options to eligible employees of the Company effective from September 19, 2011. According to the Scheme, the options granted vest within a period of four years, subject to the terms and conditions specified in the scheme. Options granted shall vest so long as the employee continues to be in the employment of the Company as on the date of vesting. Subject to an employee's continued employment with the Company, options can be exercised any time on or after the date of vesting of options as specified in the respective grants under the Scheme.

 $^{^{\}star}$ The Company issued bonus shares in the ratio of 3 shares for every 1 share held.

The details of activity under the Scheme ESOP 2011 are summarised below:

Particulars -	March 31, 2022	March 31, 2021
ratticulais	No. of options	No. of options
Outstanding at the beginning of the year	-	6,000
Forfeited during the year	-	-
Exercised during the year		6,000
Outstanding at the end of the year	-	-
Exercisable at the end of the year	-	-
Weighted average exercise price for all the above options	-	10

The details of activity under the Scheme ESOP 2016 are summarised below:

Particulars	March 31, 2022	March 31, 2021
Particulars	No. of options	No. of options
Outstanding at the beginning of the year	1,818,435	7,83,425
Granted during the year	-	-
Additional options on adjustment of stock split on September 29, 2020		19,77,600
Forfeited during the year	56,400	56,700
Exercised during the year	603,575	8,85,890
Outstanding at the end of the year	1,158,460	18,18,435
Exercisable at the end of the year	345	18,065
Options cancelled	345	-
Weighted average exercise price for all the above options	292.00	292.00

(All amounts in crore rupees except for share data or as otherwise stated)

The details of activity under the Scheme ESOP 2018 are summarised below:

Particulars	March 31, 2022	March 31, 2021
Particulars	No. of options	No. of options
Outstanding at the beginning of the year	641,250	142,750
Granted during the year	707,000	-
Additional options on adjustment of stock split on September 29, 2020	-	540,000
Forfeited during the year	59,190	41,500
Exercised during the year	153,375	-
Outstanding at the end of the year	1,135,685	641,250
Weighted average exercise price for all the above options	255.50	255.50

For options exercised during the year, the weighted average share price at the exercise date under under ESOP 2016 scheme, was $\stackrel{?}{\stackrel{?}{\stackrel{?}{?}}}$ 131.82 per share (March 31, 2021: $\stackrel{?}{\stackrel{?}{\stackrel{?}{?}}}$ 131.82 per share).

The weighted average remaining contractual life for the stock options outstanding under ESOP 2016 as at March 31, 2022 is 0.67 years (March 31, 2021: 1.67 years) and under ESOP 2018 as at March 31, 2022 is 3.73 years (March 31, 2021: 2.67). The range of exercise prices for options outstanding under ESOP 2016 as at March 31, 2022 was ₹550.00 (March 31, 2021: ₹550.00) and under ESOP 2018 as at March 31, 2022 was ₹255.50 (March 31, 2021: ₹255.50).

The weighted average fair value of stock options granted during the year under ESOP 2016 scheme was $\stackrel{?}{\stackrel{\checkmark}{}}$ Nil (March 31, 2021: $\stackrel{?}{\stackrel{\checkmark}{}}$ Nil) and under ESOP 2018 scheme was $\stackrel{?}{\stackrel{\checkmark}{}}$ 474.70 (March 31, 2021: $\stackrel{?}{\stackrel{\checkmark}{}}$ Nil). The Black Scholes valuation model has been used for computing the weighted average fair value considering the following inputs:

(All amounts in crore rupees except for share data or as otherwise stated)

30. Trade Payables (Details of dues to Micro, Small and Medium Enterprises as per MSMED Act, 2006):

Particulars	March 31, 2022	March 31, 2021
The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting year	75.63	32.41
The amount of interest paid by the buyer in terms of Section 16, of the Micro Small and Medium Enterprise Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year	-	-
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
The amount of interest accrued and remaining unpaid at the end of each accounting year; and	-	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under Section 23 of the Micro Small and Medium Enterprise Development Act, 2006.	-	-
Total	75.63	32.41

Dues to Micro and Small Enterprises have been determined to the extent such parties have been identified on the basis of information collected by the Management. This has been relied upon by the auditors.

31. In accordance with Indian Accounting Standard (Ind AS) 108 on Operating segments, segment information has been given in the consolidated financial statements of the Company, and therefore no separate disclosure on segment information is given in these financial statements.

^{*}Maximum balance outstanding during the year ₹ 143.21; (March 31, 2021: ₹ 82.22) loan given for business purposes.

The Company has provided guarantees for ₹140.90 in the form of Corporate guarantees to CITI and DBS Bank for the loans obtained by Laurus Synthesis Private Limited, Laurus Bio Private Limited & Laurus Generics Inc., USA. (March 31, 2021: ₹83.00 in the form of Corporate guarantee to BBK, Axis Bank and DBS Bank for the loans obtained by Sriam Labs Private Limited and Laurus Synthesis Private Limited).

The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates. Outstanding balances at the year-end are unsecured.

^{**}Maximum balance outstanding during the year ₹ 20.00 (March 31, 2021: ₹ 10.00) loan given for business purposes.

[^] As the future liability for gratuity and leave encashment is provided on an actuarial basis for the Company as a whole, the amount pertaining to the Key Management personnel and their relatives is not ascertainable and, therefore, not included above.

(All amounts in crore rupees except for share data or as otherwise stated)

34. Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

(A) Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

(i) Lease commitments – the Company as lessor

The Company has entered into agreements to manufacture and supply API and intermediates produced at a dedicated blocks located at Unit-1 and Unit-5 constructed exclusively for the lessee. The Company has identified assets under operating and finance lease based on the factors indicated under Appendix C to Ind AS 17 and terms of the agreement, viz. economic life of the asset vs. lease term, ownership of the asset after the lease term. The Company applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

During the year, the Company entered into a revised agreement which resulted in lease modification and as per the terms of agreement there is no exclusive right to use or direct the use of dedicated blocks located at Unit-1 and Unit-5 respectively. Accordingly, the Company has recorded the lease modification at fair value as per Ind AS 116.

(ii) Lease commitments – the Company as lessee

The Company has entered into leases for land and office premises. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the land and office premises and the fair value of the asset, that it does not retain significant risks and rewards of ownership of the land and the office premises and accounts for the contracts as operating leases. Further, refer note no. 40 A, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

(iii) Taxes

The Company has a Minimum Alternate Tax (MAT) credit of ₹ 33.21 as on March 31, 2022 (March 31, 2021: ₹ 82.55). The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. The Company based on its future projections of profit believes that the MAT credit would be fully utilised by the financial year 2022-23.

(B) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(i) Share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimation requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The Black Scholes valuation model has been used by the Management for share-based payment transactions. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 29.

(ii) Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

(All amounts in crore rupees except for share data or as otherwise stated)

(iii) Defined employee benefit plans (Gratuity)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries. Further details about gratuity obligations are given in Note 28.

(iv) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow ('DCF') model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer notes 37 and 38 for further disclosures.

(v) Depreciation on property, plant and equipment

Depreciation on property, plant and equipment is calculated on a straight-line basis using the rates arrived at based on the useful lives and residual values of all its property, plant and equipment estimated by the management. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of property, plant and equipment, though these rates in certain cases are different from lives prescribed under Schedule II of the Companies Act, 2013.

(vi) Impairment of investments

The Company reviews its carrying value of investments annually, or more frequently when there is an indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for. The recoverable amounts have been determined based on value in use calculations which uses cash flow projections covering generally a period of five years (which are based on key assumptions such as margins, expected growth rates based on past experience and Management's expectations/ extrapolation of normal increase/steady terminal growth rate) and appropriate discount rates that reflects current market assessments of time value of money and risks specific to these investments. The cash flow projections included estimates for five years developed using internal forecasts and terminal growth rate thereafter. The management believes that any reasonable possible change in key assumptions on which recoverable amount is based is not expected to cause the aggregate carrying amount to exceed the aggregate recoverable amount of the investments.

(C) Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19)

COVID-19 is the infectious disease caused by the most recently discovered coronavirus, SARS-CoV-2. In March 2020, the WHO declared COVID-19 a pandemic. The Company has adopted measures to curb the spread of infection in order to protect the health of our employees and ensure business continuity with minimal disruption. The Company immediately took steps to mitigate sanitary and health risks and the Company promptly set up a team of experts to assist the Health and Safety at Work places. In assessing the recoverability of receivables and other financials assets, the Company has considered internal and external information up to the date of approval of these Standalone financial statements. The impact of the global health pandemic may be different from that of estimated as at the date of approval of these standalone financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

35. Hedging activities and derivatives

Derivatives designated as hedging instruments

The Company uses foreign currency denominated borrowings and foreign exchange forward contracts to manage some of its transaction exposures. The Company classifies its derivative financial instruments that hedge foreign currency risk associated with highly probable forecasted transactions as cash flow hedges and measures them at fair value. The effective portion of such cash flow hedges is recorded in the Company's hedging reserve as a component of equity and re-classified to the Statement of Profit and Loss as revenue in the period corresponding to the occurrence of the forecasted transactions. The ineffective portion of such cash flow hedges is recorded in the Statement of Profit and Loss immediately. All outstanding forward contracts have maturity period of less than twelve months. Refer note no. 38(d) for disclosure on hedges of highly probable forecasted transactions.

(All amounts in crore rupees except for share data or as otherwise stated)

36. Fair values

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments:

Particulars	Carrying	value	Fair value	
Particulars	March 31, 2022	March 31, 2021	March 31, 2022	March 31, 2021
Financial assets at fair value through profit & loss:				
Investments	3.41	3.41	3.41	3.41
Financial assets at amortised cost:				
Loans	88.75	44.85	88.75	44.85
Deposits and others	48.03	78.36	48.03	78.36
Trade receivables	1,269.15	1,279.82	1,269.15	1,279.82
Cash and cash equivalents	40.33	38.78	40.33	38.78
Other balances with banks	0.23	-	0.23	-
Financial liabilities at amortised cost:				
Borrowings (Non-current and current)	1,619.66	1,389.52	1,619.66	1,389.52
Interest accrued	3.18	2.59	3.18	2.59
Trade payables	849.23	1,158.54	849.23	1,158.54
Capital creditors and others	284.59	84.76	284.59	84.76
Financial liabilities/(assets) at fair value through profit				
and loss:				
Derivative contracts	(1.81)	14.44	(1.81)	14.44
Financial liabilities at fair value through OCI				
Hedges of highly probable forecasted transactions	-	(14.44)	-	(14.44)

The management assessed that cash and cash equivalents, trade receivables, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. Further, the management has assessed that fair value of borrowings approximate their carrying amounts largely since they are carried at floating rate of interest.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

37. Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

Quantitative disclosures fair value measurement hierarchy for assets and liabilities as at March 31, 2022:

	Fair value measurement using				
Particulars	Date of valuation	Total	Quoted prices in active markets	Significant observable inputs	Significant unobservable inputs
			(Level 1)	(Level 2)	(Level 3)
Financial assets at fair value through profit and loss:					
Investments	March 31, 2022	3.41	-	3.41	-
Financial liabilities at fair value through profit and loss:					
Derivative financial instruments	March 31, 2022	(1.81)	-	(1.81)	-
Financial liabilities at fair value through OCI:					
Hedges of highly probable forecasted transactions	March 31, 2022	-	-	-	-

Quantitative disclosures fair value measurement hierarchy for assets and liabilities as at March 31, 2021:

	Fair value measurement using					
Particulars	Date of valuation	Total	Quoted prices in active markets	Significant observable inputs	Significant unobservable inputs	
			(Level 1)	(Level 2)	(Level 3)	
Financial assets at fair value through profit and loss:						
Investments	March 31, 2021	3.41	-	3.41	-	
Financial liabilities at fair value through profit and loss:						
Derivative financial instruments	March 31, 2021	14.44	-	14.44	-	
Financial liabilities at fair value through OCI:						
Hedges of highly probable forecasted transactions	March 31, 2021	(14.44)	-	(14.44)	-	

(All amounts in crore rupees except for share data or as otherwise stated)

Measurement of fair value

Valuation techniques

The following table shows the valuation techniques used in measuring Level 2 fair values for assets and liabilities carried at fair value through profit or loss.

Туре	Valuation technique
Assets measured at fair value:	
Investments	The fair value is determined based on value per share derived from net worth of the Company as at the reporting date.
Liabilities measured at fair value:	
Derivative financial instruments	The fair value is determined using quoted forward exchange rates at the reporting date.

38. Financial risk management objectives and policies

Financial risk management framework

The Company is exposed primarily to credit risk, liquidity risk and market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company.

A. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk, except for trade receivables.

Trade receivables:

The customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on the individual credit limits are defined in accordance with this assessment and outstanding customer receivables are regularly monitored. Of the trade receivables balance, ₹481.99 in aggregate (as at March 31, 2021 ₹ 698.65) is due from the Company's customers individually representing more than 5% of the total trade receivables balance and accounted for approximately 38% (March 31, 2021: 55%) of all the receivables outstanding. The Company' receivables turnover is quick and historically, there was no significant defaults on account of those customer in the past. Ind AS requires an entity to recognise in profit or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised in accordance with Ind AS 109. The Company assesses at each date of statements of financial position whether a financial asset or a group of financial assets is impaired. Expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information.

Before accepting any new customer, the Company uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed on periodic basis. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix.

Exposure to credit risk:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 1,269.15 (March 2021: ₹ 1,279.82), being the total of the carrying amount of balances with trade receivables.

(All amounts in crore rupees except for share data or as otherwise stated)

B. Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

Particulars	Up to 1 year	1 to 3 years	3 to 5 years	> 5 years	Total
March 31, 2022:					
Non-current borrowings (including current maturities)	204.72	496.26	53.41	-	754.39
Current borrowings	865.27	-	-	-	865.27
Interest accrued	3.18	-	-	-	3.18
Trade payables	849.23	-	-	-	849.23
Other payables	284.59	-	-	-	284.59
	2,206.99	496.26	53.41	-	2,756.66
March 31, 2021:					
Non-current borrowings (including current maturities)	129.98	317.14	65.50	-	512.62
Current borrowings	876.90	-	-	-	876.90
Interest accrued	2.59	-	-	-	2.59
Trade payables	1,158.54	-	-	-	1,158.54
Other payables	84.76	-	-	-	84.76
	2,252.77	317.14	65.50	-	2,635.41

C. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. In order to optimise the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on borrowings, as follows:

Particulars	Chang	Change in basis points		Effect on profit before tax	
	Increase	Decrease	Decrease	Increase	
March 31, 2022					
Indian Rupees	0.50%	0.50 %	(6.53)	6.53	
US Dollars	0.50 %	0.50 %	(2.42)	2.42	
March 31, 2021					
Indian Rupees	0.50%	0.50%	(4.25)	4.25	
US Dollars	0.50%	0.50%	(1.82)	1.82	

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment.

(All amounts in crore rupees except for share data or as otherwise stated)

Foreign currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar against the functional currencies of the Company. The Company, as per its risk management policy, uses derivative instruments primarily to hedge foreign exchange. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. It hedges a part of these risks by using derivative financial instruments in line with its risk management policies. The information on derivative instruments is as follows:

a) Forward contract (Derivatives):

Forward contract outstanding as at Balance Sheet date:

March 31, 2022 Sell US \$ 22,000,000 Designated as fair value hedge – receivables March 31, 2021 Sell US \$ 38,330,386 Designated as fair value hedge – receivables

b) Details of Unhedged Foreign Currency Exposure:

The year end foreign currency exposures that have not been hedged by a derivative instrument or otherwise are as under:

			March 31, 2022			March 31, 2021	
Particulars	Currency	Amount in foreign currency	Amount in ₹	Conversion rate	Amount in foreign currency	Amount in ₹	Conversion rate
Secured loans	USD	92,068,667	697.95	75.81	48,904,554	359.47	73.50
	EURO	-	-	84.66	-	-	86.10
Unsecured loans	USD	5,138,355	38.95	75.81	5,962,245	44	74
Interest accrued but not due on borrowings	USD	62,725	0.48	75.81	35,135	0.26	73.50
Trade payables	USD	21,671,594	164.29	75.81	60,344,270	443.56	73.50
	EURO	468,045	3.96	84.66	1,451,011	12.49	86.10
	GBP	79,533	0.79	99.55	157,822	1.59	100.95
	CAD	-	-	60.50	2,495	0.01	58.06
	NAD	83,714	0.04	5.21	-	-	4.95
	AED	11,450	0.01	10.86	-	-	10.86
Capital creditors	USD	517,286	3.92	75.81	1,237,099	9.09	73.50
	GBP	18,853	0.19	99.55	15,892	0.16	100.95
	EURO	631,132	5.34	84.66	127,057	1.09	86.10
Trade receivables	USD	77,443,259	587.07	75.81	63,560,138	467.20	73.50
	EURO	8,273,530	70.04	84.66	3,639,671	31.34	86.10
	GBP	157,624	1.57	99.55	-	-	100.95
	CAD	1,506,862	9.12	60.50	915,418	5.32	58.06
Cash and cash equivalents*	USD	5,247,377	39.78	75.81	5,014,268	36.86	73.50
	EURO	13,363	0.11	84.66	10,170	0.09	86.10

^{*} Amount less than Indian Rupees 100,000.

c) Foreign currency sensitivity:

The following tables demonstrate the sensitivity to a reasonably possible change in USD and EURO exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

Dankinslaus	Change in fore	x rate	Effect on profit before tax		
Particulars	Increase	Decrease	Increa	se/(Decrease)	
March 31, 2022					
USD	1.00%	1.00%	(2.79)	2.79	
EURO	1.00%	1.00%	0.61	(0.61)	

(All amounts in crore rupees except for share data or as otherwise stated)

Doubleston	Change in fore	Change in forex rate		
Particulars	Increase	Decrease	Increa	se/(Decrease)
March 31, 2021				
USD	1.00%	1.00%	(3.52)	3.52
EURO	1.00%	1.00%	0.18	(0.18)

d) Hedges of highly probable forecasted transactions:

In respect of hedges of highly probable forecasted transactions, the Company recorded, as a component of equity, a net loss of \mathfrak{T} Nil for the year ended March 31, 2022 (for the year ended March 31, 2021: \mathfrak{T} Nil).

The net carrying amount of the Company's "hedging reserve" as a component of equity before adjusting for tax impact is ₹ Nil as at March 31, 2022 (as at March 31, 2021: ₹ Nil).

The below table summarises the periods when the cash flows associated with highly probable forecasted transactions that are classified as cash flow hedges are expected to occur.

		USD Million
Particulars	March 31, 2022	March 31, 2021
Not later than one month	-	-
Later than one month and not later than three months	-	-
More than three months and not later than twelve months	-	-
Total	-	-

e) Impact of COVID-19 (Global pandemic)

The Company basis their assessment believes that the probability of the occurrence of their forecasted transactions is not impacted by COVID-19 pandemic. The Company has also considered the effect of changes, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness. The Company continues to believe that there is no impact on effectiveness of its hedges.

39. Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure in consideration to the changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company intends to keep the gearing ratio between 0.5 to 1.5. The Company includes within net debt, borrowings including interest accrued on borrowings less cash and short-term deposits.

Particulars	March 31, 2022	March 31, 2021
Borrowings including interest accrued on borrowings (Note 13)	1,622.84	1,392.11
Less: Cash and cash equivalents; other balances with banks (Note 10A & 10B)	(40.56)	(38.78)
Net debt	1,582.28	1,353.33
Equity	107.47	107.32
Other equity	3,280.74	2,604.92
Total equity	3,388.21	2,712.24
Gearing ratio (Net debt/ Total equity)	0.47	0.50

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2022.

(All amounts in crore rupees except for share data or as otherwise stated)

40. Commitments and Contingencies

A. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Operating lease commitments – Company as lessee

The Company's lease asset classes primarily consist of leases for land. The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees. The Company has adopted Ind AS 116, effective annual reporting period beginning April 01, 2019 and applied the standard to its leases, retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 01, 2019). Accordingly, the Company has not restated comparative information, instead, the cumulative effect of initially applying this standard has been recognised as an adjustment to the opening balance of retained earnings as on April 01, 2019. On transition, the adoption of the new standard resulted in recognition of Right-of-Use asset (ROU) of ₹ 44.85 crore and a lease liability of ₹ 23.24 crore. The cumulative effect of applying this standard resulted in ₹ 0.217 crore being debited to retained earnings (net of taxes).

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2022 and March 31, 2021

Particulars	March 31, 2022	March 31, 2021
Opening Balance	40.94	42.89
Additions	54.99	-
Depreciation	(2.74)	(1.95)
Closing Balance	93.19	40.94

The aggregate depreciation expense on ROU assets is included under depreciation and amortisation expense in the statement of profit and loss

The following is the movement in lease liabilities during the year ended March 31, 2022 and March 31, 2021

Particulars	March 31, 2022	March 31, 2021
Opening Balance	21.74	22.55
Additions	54.99	-
Finance cost accrued during the year	1.92	1.80
Payment of lease liabilities	(45.21)	(2.61)
Closing Balance	33.44	21.74

(All amounts in crore rupees except for share data or as otherwise stated)

The following is the break-up of current and non-current lease liabilities as at March 31, 2022 and March 31, 2021

Particulars	March 31, 2022	March 31, 2021
Non-current lease liabilities	29.50	19.87
Current lease liabilities	3.94	1.87
Total	33.44	21.74

The table below provides details regarding the contractual maturities of lease liabilities as at March 31, 2022 and March 31, 2021 on discounted basis

Particulars	March 31, 2022	March 31, 2021
Within one year	3.94	1.87
After one year but not more than five years	19.70	9.35
More than five years	9.80	10.52

B. Commitments

Particulars	March 31, 2022	March 31, 2021
Estimated amount of contracts remaining to be executed on capital account and not provided for	263.07	424.71

C. Contingent liabilities

Parti	Particulars March 31, 2022		
(i)	Outstanding bank guarantees (excluding performance obligations)	44.47	51.98
(ii)	Claims arising from disputes not acknowledged as debts – direct taxes	10.90	11.19
(iii)	Claims arising from disputes not acknowledged as debts – indirect taxes	53.51	50.90
(iv)	On account of provident fund liability	7.57	7.57
(v)	Corporate guarantees	140.90	83.00

41. Ratios

The following are analytical ratios for the year ended March 31, 2022 and March 31, 2021

Particulars	Numerator	Denominator	March 31, 2022	March 31, 2021	Variance	Decrease was primarily on account of decrease in profits and increase in the borrowings
Current Ratio	Current Assets	Current Liabilities	1.32	1.29	2%	
Debt-Equity Ratio	Total Debt ⁽¹⁾	Shareholder's Equity	0.48	0.51	(7)%	
Debt Service Coverage Ratio	Earnings available for debt service ⁽²⁾	Debt service ⁽³⁾	5.82	9.93	(41)%	Decrease was primarily on account of decrease in profits and increase in the borrowings
Return on Equity (ROE)	Net profit after taxes	Average Shareholder's Equity	24.6 %	42.2%	(42)%	Decrease was primarily on account of decrease in profits
Inventory Turnover Ratio	Revenue from Operations	Average Inventory	2.92	3.93	(26)%	Decrease was primarily on account of increase in inventories and decrease in revenue
Trade Receivables Turnover Ratio	Revenue from Operations	Average Receivables	3.69	4.63	(20)%	
Trade Payables Turnover Ratio	Purchases	Average Trade Payables	0.57	0.78	(27)%	Decrease was primarily on account of increase in average payables
Net Capital Turnover Ratio	Revenue from Operations	Working Capital ⁽⁴⁾	6.11	6.91	(12)%	
Net Profit Ratio	Net Profit	Revenue from Operations	15.9 %	20.0 %	(21)%	
Return on Capital Employed (ROCE)	Earnings Before Interest and Taxes (EBIT)	Capital Employed ⁽⁵⁾	23.5 %	38.7%	(39)%	Decrease was primarily on account of decrease in profits

Independent Auditor's Report

To The Members of **Laurus Labs Limited**

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Laurus Labs Limited ("the Parent") and its subsidiaries, (the Parent and its subsidiaries together referred to as "the Group") which includes the Group's share of loss in its associate, which comprise the Consolidated Balance Sheet as at March 31, 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements of the subsidiaries and associate referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS'), and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash

flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No. Key Audit Matter

1 Revenue recognition - Refer note 17 of the consolidated financial statements

The Parent recognises revenue from sale of products based on the terms and conditions of transactions which varies with different customers.

For sale transactions in a certain period of time around the Balance Sheet date, it is essential to ensure that the control of the goods have been transferred to the customers. As revenue recognition is subject to management's judgement on whether the control of the goods have been transferred, we consider cutoff of revenue as a key audit matter.

Auditor's Response

Principal audit procedures performed:

We obtained an understanding of the revenue recognition process and tested the Parent's controls around the timely and accurate recording of sales transactions.

We have obtained an understanding of a sample of customer contracts.

We tested the access and change management controls of the relevant information technology system in which shipments are recorded.

Our test of revenue samples focused on sales recorded immediately before the year-end, obtaining evidence to support the appropriate timing of revenue recognition, based on terms and conditions set out in sales contracts and delivery documents.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's report including annexures to Board's report, Report on Corporate Governance and Business Responsibility Report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries is traced from their financial statements audited by the other auditors.

• If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group including its Associate in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associate and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate are also responsible for overseeing the financial reporting process of the Group and of its associate.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of eight subsidiaries, whose financial statements reflect total assets of ₹ 463.48 crores as at March 31, 2022, total revenues of ₹ 300.76 crores and net cash inflows amounting to ₹ 25.84 crores for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

- As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements of the subsidiaries referred to in the Other Matters section above we report, to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, returns and the reports of the other auditors.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other

- Comprehensive Income, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Parent as on March 31, 2022 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies and its associate company incorporated in India is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent and subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the auditor's reports of subsidiary companies incorporated in India the remuneration paid by the Parent and such subsidiary companies to their respective directors during the year is in accordance with the provisions of section 197 of
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and its associate.
 - ii. The Group and its associate did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group and its associate company incorporated in India.
 - v. (a) The respective Managements of the Parent its subsidiaries and its associate which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the

other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, as disclosed in the note 42(vi) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent or any of such subsidiaries, or associate to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent or any of such subsidiaries or associate ("Ultimate Beneficiaries") or provide any quarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (b) The respective Managements of the Parent its subsidiaries and its associate which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries that, to the best of their knowledge and belief as disclosed in the note 42(vii) to the consolidated financial statements, no funds have been received by the Parent or any of such subsidiaries, or associate from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Parent or any of such subsidiaries, or associate shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries which are companies incorporated in India whose financial

statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- V. (a) The first interim dividend declared and paid by the Parent during the year and until the date of this report is in accordance with section 123 of the Companies Act 2013.
 - (b) The second interim dividend declared by the Parent during the year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to declaration of dividend. However, the said dividend was not due for payment on the date of this audit report.
 - (c) The interim dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to payment of dividend.
- 2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO" / "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us and the auditors of respective companies included in the consolidated financial statements to which reporting under CARO is applicable, as provided to us by the Management of the Parent, we report that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said companies included in the consolidated financial statements.

Annexure "A" to the Independent Auditor's Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of **Laurus Labs Limited** (hereinafter referred to as "Parent") and its subsidiary companies, which are companies incorporated in India as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent, its subsidiary companies which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent and its subsidiary companies which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the

risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent and its subsidiary companies which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Parent and its subsidiary companies which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal

Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two subsidiary companies which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

1. Corporate information

The consolidated financial statements comprise financial statements of Laurus Labs Limited (the 'Company') and its subsidiaries (collectively, the 'Group') for the year ended March 31, 2022. The Company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company's shares are listed on BSE Limited and National Stock Exchange of India Limited in India. The registered office of the Company is located at Plot no. 21, Jawaharlal Nehru Pharma city, Parawada, Vishakhapatnam, Andhra Pradesh – 531 201, India. The Group is principally engaged in offering a broad and integrated portfolio of Active Pharmaceuticals Ingredients (API) including intermediates, Generic Finished dosage forms (FDF) and Contract Research services to cater to the needs of the global pharmaceutical industry and to develop novel enzyme solutions for Industrial Biotechnology and Animal Origin Free recombinant proteins and enzymes for biopharma. Information on the Group's structure is provided in Note 38. Information on other related party relationships of the Group is provided in Note 32. The consolidated financial statements were authorised for issue in accordance with a resolution of the directors on April 28, 2022.

2. Significant accounting policies

2.1 Basis of preparation

(a) The financial statements of the Group have been prepared in accordance with Indian Accounting Standards ('Ind AS'), under the historical cost except for certain financial instruments which are measured at fair values at the end of each reporting period as explained in the accounting policies below, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued there after.

The consolidated financial statements have been prepared on a historical cost except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in accounting policies below.

The financial statements are presented in Indian Rupees and all values are rounded to the nearest crore, except otherwise indicated.

Basis of consolidation

The Consolidated financial statements comprise the financial statements of the Group as at March 31, 2022 and March 31, 2021.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

(All amounts in crore rupees except for share data or as otherwise stated)

The Group has following investments in subsidiaries and associate:

	Principal place of	Investee relationship		Proportion of ownership interest	
Name of Entity	business and Country of Incorporation	March 31, 2022	March 31, 2021	March 31, 2022	March 31, 2021
Laurus Synthesis Inc. (Refer note 1)	USA	Subsidiary	Subsidiary	-	-
Sriam Labs Private Limited	India	Subsidiary	Subsidiary	100%	100%
Laurus Synthesis Private Limited (Refer note 2)	India	Subsidiary	Subsidiary	100%	100%
Laurus Holdings Limited	UK	Subsidiary	Subsidiary	100%	100%
Laurus Generics Inc. (Refer note 1)	USA	Step-down subsidiary	Step-down subsidiary	100 %	100%
Laurus Generics GmbH	Germany	Step-down subsidiary	Step-down subsidiary	100 %	100%
Laurus Generics SA (Pty.) Ltd. (Refer note 3)	South Africa	Subsidiary	Subsidiary	100 %	100%
Laurus Bio Private Limited (Refer note 4)	India	Subsidiary	Subsidiary	76.60 %	79.21%
Immuno Adopative Cell Therapy Private Limited (Refer note 5)	India	Associate	-	18.9 %	-

- During the year ended March 31, 2021, Laurus Synthesis Inc. USA (100% wholly-owned subsidiary of the Company) has been merged with Laurus Generics Inc. USA (Step-down subsidiary of the Company) with effect from September 30, 2020. The Company accounted for the business combination in accordance with the requirement of Appendix C of Ind AS 103 Business Combination which lays down the principles in respect of accounting for business combinations of entities or businesses under common control. As required by the standard, pooling of interest method has been considered for common control business combination and accordingly, the assets and liabilities are reflected in the books of the Company at their respective carrying amounts. There is no impact of this transaction on the consolidated financial statements.
- During the year ended March 31, 2021, the Company incorporated wholly-owned subsidiary, Laurus Synthesis Private Limited (LSPL) in India.
- 3. During the year ended March 31, 2021, the Company acquired 100% shares of Phekolong Pharmaceuticals Pty. Ltd., (renamed as Laurus Generics SA (Pty.) Ltd.) a wholly-owned subsidiary of Pharmacare Limited t/a Aspen Pharmacare, South Africa.
- 4. During the year ended March 31, 2021, the Company acquired 79.21% stake in Laurus Bio Private Limited "Laurus Bio" (Formerly known as Richcore Lifesciences Private Limited). Laurus Bio became the subsidiary w.e.f. January 20, 2021. As on March 31, 2022, the Company holds 76.60%.
- 5. During the year ended March 31, 2022, the Company entered into an investment agreement with Immunoadoptive Cell Therapy Private Limited, ("ImmunoACT") to acquire 26.62% stake, subject to completion of conditions precedent, for agreed consideration of ₹ 46 crore. As on March 31, 2022, the Company invested ₹ 27.60 crore representing 996 equity shares of ₹ 10/- each fully paid-up and 3,983 compulsorily

convertible preference shares of ₹ 10/- each of which ₹ 5/- paid-up, with a stake of 18.94%.

(b) Consolidation procedure:

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries.
- b) Eliminate the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- d) Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests.
- e) When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

• Derecognises the assets (including goodwill) and liabilities of the subsidiary

(All amounts in crore rupees except for share data or as otherwise stated)

- Derecognises the carrying amount of any noncontrolling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 Summary of significant accounting policies

(a) Business combinations and goodwill

In accordance with Ind-AS 101 provisions related to first time adoption, the Group has elected to apply Ind AS accounting for business combinations prospectively from April 01, 2015. As such, Indian GAAP balances relating to business combinations entered into before that date, including goodwill, have been carried forward with minimal adjustment. Similarly, such first time adoption exemption is also adopted for associate.

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in Statement of Profit and Loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

(All amounts in crore rupees except for share data or as otherwise stated)

Investment in associates:

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. The results and assets and liabilities of associate are incorporated in these Consolidated Financial Statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105 – Non-current Assets Held for Sale and Discontinued Operations.

(b) Current versus non-current classification

The Group presents assets and liabilities in the Balance Sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

(c) Foreign currencies

The Group's consolidated financial statements are presented in Indian rupees, which is also the parent company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a

foreign operation the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group at its functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss except with the exception of exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity, such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Group companies

On consolidation, the assets and liabilities of foreign operations are translated into functional currency at the rate of exchange prevailing at the reporting date and their Statements of Profit or Loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the Group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the date of transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in Statement of Profit and Loss.

(d) Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

(All amounts in crore rupees except for share data or as otherwise stated)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's chief financial officer determines the appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation. Any change in the fair value of each asset and liability is also compared with

relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(e) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates after taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Group derives revenues primarily from manufacture and sale of Active Pharma Ingredients (API) including intermediates, Generic Finished dosage forms (FDF) and Contract Research services (together called as "Pharmaceuticals")

The following is summary of significant accounting policies relating to revenue recognition. Further, refer note no. 17 for disaggregate revenues from contracts with customers for the year ended March 31, 2022.

Sale of products

The Group recognises revenue for supply of goods to customers against orders received. The majority of contracts that Group enters into relate to sales orders containing single performance obligations for the delivery of pharmaceutical products as per Ind AS 115. Product revenue is recognised when control of the goods is passed to the customer. The point at which control passes is determined based on the terms and conditions by each customer arrangement, but generally occurs on delivery to the customer. Revenue is not recognised until it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

Sale of services

Revenue from services rendered, which primarily relate to contract research, is recognised in the statement of profit and loss as the underlying services are performed. Upfront non-refundable payments received under these arrangements are deferred and recognised as revenue over the expected period over which the related services are expected to be performed.

Interest income

For all debt financial instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying

(All amounts in crore rupees except for share data or as otherwise stated) $% \left(\frac{1}{2}\right) =\left(\frac{1}{2}\right) \left(\frac{1}{2}\right) \left($

amount of the financial asset or to the amortised cost of a financial liability. Interest income is included in finance income in the Statement of Profit and Loss.

Dividends

Revenue is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

Export incentives are recognised as income when the right to receive credit as per the terms of the scheme is established in respect of the exports made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

(f) Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provision where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

 When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss. In respect of taxable temporary differences associated with investments in subsidiaries and associate, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits (MAT Credit) and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries and associate, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period/ year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Dividend distribution tax

Final Dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors. The

(All amounts in crore rupees except for share data or as otherwise stated)

entity recognised the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. The Finance Act, 2020 has repealed the Dividend Distribution Tax (DDT). The Company is now required to pay/distribute dividend after deducting applicable taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates.

(g) Property, plant and equipment

Under the previous GAAP (Indian GAAP), property, plant and equipment and capital wok in progress were carried in the Balance Sheet at cost of acquisition. The Group has elected to regard those values of property, plant and equipment as deemed cost at the date of the acquisition since there is no change in the functional currency as at April 01, 2015 (date of transition to Ind AS) on the date of transition to Ind AS. The Group has also determined that cost of acquisition or construction at deemed cost as at April 01, 2015.

Capital work-in-progress, Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance or extends its estimated useful life.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Factory buildings : 30 years

Other buildings : 60 years

Plant and equipment : 5 to 20 years

Furniture and fixtures : 10 years

Vehicles : 4 to 5 years

Computers : 3 to 6 years

The Group, based on technical assessment and management estimate, depreciates certain items of plant and equipment and vehicles over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(h) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Computer Software

Costs relating to software, which is acquired, are capitalised and amortised on a straight-line basis over their estimated useful lives of five years.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset.

(i) Leases

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of

(All amounts in crore rupees except for share data or as otherwise stated)

whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Effective April 01, 2019, the Group adopted Ind AS 116 "Leases", applied to all lease contracts existing on April 01, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Accordingly, comparatives for the year ended March 31, 2019 have not been retrospectively adjusted.

Group as a lessee

The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Group has the right to direct the use of the asset. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Group recognises a Right-of-Use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the

incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 41 A, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Group to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

(j) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(k) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost is determined on weighted average basis.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

 Raw materials and packing material: Materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost includes cost of purchase and other costs incurred

(All amounts in crore rupees except for share data or as otherwise stated)

in bringing the inventories to their present location and condition.

- Finished goods and work-in-progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.
- Traded goods and spare parts: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Stores and spares are valued at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(I) Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated.

Impairment losses, including impairment on inventories, are recognised in the Statement of Profit and Loss. For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised.

The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior periods/ years. Such reversal is recognised in the Statement of Profit and Loss.

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

(m) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(n) Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Group operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund by a third party.

The cost of providing benefits under the defined benefit plan is determined based on projected unit credit method.

(All amounts in crore rupees except for share data or as otherwise stated)

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through Other comprehensive income ("OCI") in the period in which they occur. Remeasurements are not reclassified to Statement of Profit and Loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs, pastservice costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

The Group treats accumulated leaves which are to be settled after 12 months as a long-term employee benefit and accumulated leaves which are to be settled in the next 12 months as a short-term employee benefit for measurement purposes. Such accumulated leaves are provided for based on an actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the Statement of Profit and Loss and are not deferred. The Group presents the entire liability in respect of leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement beyond 12 months after the reporting date.

(o) Share-based payments

Employees of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments.

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using Black Scholes valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired

and the Group's best estimate of the number of equity instruments that will ultimately vest. The Statement of Profit and Loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(p) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets:

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, a 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. This category generally applies to trade and other receivables.

For purposes of subsequent measurement, Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is

(All amounts in crore rupees except for share data or as otherwise stated)

classified as at FVTPL. FVTPL is a residual category for debt instruments.

In addition, the group may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The group has not designated any debt instrument as at FVTPL due to recognition inconsistency.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Further, All equity investments in scope of Ind AS 109 are measured at fair value. For equity instruments which are not held for trading, the group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. If the group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the group may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when:

- a) the rights to receive cash flows from the asset have expired, or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'passthrough' arrangement; and either
 - i. the Group has transferred substantially all the risks and rewards of the asset, or
 - the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises

an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, deposits and bank balances.
- b) Trade receivables that result from transactions that are within the scope of Ind AS 115.

The Group follows 'simplified approach' for recognition of impairment loss. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate. When estimating the cash flows, an entity is required to consider:

 All contractual terms of the financial instrument (including prepayment, extension and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required

(All amounts in crore rupees except for share data or as otherwise stated)

to use the remaining contractual term of the financial instrument.

 Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. On that basis, the Group estimates the following provision matrix at the reporting date:

Receivables past due	% of allowance
> 1 year and < 2 years	25%
> 2 years and < 3 years	50%
> 3 years	100%

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss ('FVTPL'), loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are

designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of Profit and Loss. The Group has not designated any financial liability as at fair value through profit and loss.

Loans and borrowings

This is the category most relevant to the group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Reclassification of financial assets

The group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The group's senior management determines change in the business model as a result of external or internal changes which are significant to the group's

(All amounts in crore rupees except for share data or as otherwise stated)

operations. Such changes are evident to external parties. A change in the business model occurs when the group either begins or ceases to perform an activity that is significant to its operations. If the group reclassifies financial assets, it applies the reclassification prospectively from the

reclassification date which is the first day of the immediately next reporting period following the change in business model. The group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in Statement of Profit and Loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified to Statement of Profit and Loss at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(q) Derivative financial instruments

The Group uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The purchase contracts that meet the definition of a derivative under Ind-AS 109 are recognised in the Statement of Profit and Loss. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

Hedges of highly probable forecasted transactions

The Group classifies foreign currency forward contracts as derivative instruments in a cash flow hedging relationship to hedge foreign currency risk associated with highly probable forecasted transactions.

The use of foreign currency forward contracts is governed by the Company's policies, which provide written principles on the use of such derivatives consistent with the Company's risk management strategy. The Company does not use derivative financial instruments for speculative purposes. Foreign currency forward contract derivative instruments

are remeasured at fair value at each reporting date. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised directly in cash flow hedge account in reserves and surplus as a component of equity and reclassified to the Statement of Profit and Loss as revenue in the period corresponding to the occurrence of the forecasted transactions. Ineffective portion of such derivatives is recognised immediately in Statement of Profit and Loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognised in other comprehensive income /(loss), remains in other comprehensive income until the forecast transaction occurs. If the forecast transaction is no longer expected to occur, then the balance in other comprehensive income/(loss) is recognised immediately in the Statement of Profit and loss. Hedges of recognised assets and liabilities: Changes in the fair value of derivative contracts that economically hedge monetary assets and liabilities in foreign currencies, and for which no hedge accounting is applied, are recognised in the statement of profit and loss. The changes in fair value of such derivative contracts, as well as the foreign exchange gains and

(All amounts in crore rupees except for share data or as otherwise stated)

losses relating to the monetary items, are recognised in the Statement of Profit and Loss.

(r) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

(s) Research and development

Revenue expenditure on research and development is charged to the Statement of Profit and Loss in the year in which it is incurred. The Group does not generate any intangible asset internally.

(t) Measurement of EBITDA

The Group presents EBITDA in the Statement of Profit and Loss, which is neither specifically required by Ind AS 1 nor defined under Ind AS. Ind AS complaint Schedule III allows companies to present line items, sub-line items and sub-totals shall be presented as an addition or substitution on the face of the financial statements when such presentation is relevant to an understanding of the group's financial position or performance or to cater to industry/sector-specific disclosure requirements or when required for compliance with the amendments to the Companies Act or under the Indian Accounting Standards.

Accordingly, the Group has elected to present EBITDA as a separate line item on the face of the Statement of Profit and Loss and does not include depreciation and amortisation expense, finance income, finance costs, share of profit/ loss from associate and tax expense in the measurement of EBITDA.

(u) New standards and interpretations not yet adopted

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 01, 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Group does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 - Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the Company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Group does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 – Onerous Contracts – Costs of Fulfilling a Contract

The amendments specify that the "cost of fulfilling" a contract comprises the "costs that relate directly to the contract". Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Group does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the "10 percent" test of Ind AS 109 in assessing whether to derecognise a financial liability. The Group does not expect the amendment to have any significant impact in its financial statements.

Ind AS 116 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Group does not expect the amendment to have any significant impact in its financial statements.

(All amounts in crore rupees except for share data or as otherwise stated)

As at March 31, 2021	246.30	9.32	255.62
As at March 31, 2022	246.30	10.83	257.13

Impairment test of goodwill:

Goodwill is tested for impairment on annual basis and whenever there is an indication that the recoverable amount of cash generating unit is less than its carrying amount based on number of factors including business plan, operating results, future cash flows and economic conditions. The recoverable amount of cash generating units (CGU) is determined based on higher of value in use and fair value less cost to sell.

The Group generally uses discounted cash flow based methods to determine the recoverable amount. These discounted cash flows use five-year projections that are based on financial forecasts. Cash flow projections take into account past experience and management's best estimate about future developments.

Discount rate represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and the risks specific to the asset for which future cash flow estimates have not been adjusted. The discount rate calculation is derived weighted average cost of capital of specific company. Terminal value growth rates take into consideration of external macroeconomic sources of data and industry specific trends.

The following table presents the key assumptions used to determine value in use/fair value less cost to sell for impairment test purpose:

Particulars	March 31, 2022	March 31, 2021
Terminal value growth rate	5 %	5%
Pre tax discount rate	20%	20%

Based on the above, no impairment was identified as at March 31, 2022 as the recoverable value exceeds the carrying value.

(All amounts in crore rupees except for share data or as otherwise stated)

5. Financial assets

A. Investments

	March 31, 2022	March 31, 2021

- a) No trade or other receivables are due from directors or other officers of the Company either severally or jointly with any other person. Nor any trade or other receivables are due from firms or private companies respectively in which any director is a partner, a director or a member.
- b) Trade receivables are non-interest bearing and are generally on terms of 30–120 days.
- c) Of the trade receivables balance, ₹ 481.99 in aggregate (as at March 31, 2021: ₹ 698.65) is due from the Company's customers individually representing more than 5% of the total trade receivables balance.
- d) The Group has used practical expedient by computing the expected credit loss allowance for doubtful trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking estimates. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates used in the provision matrix. In calculating expected credit loss, the Group has also considered credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID-19.

Movement in the expected credit loss allowance	March 31, 2022	March 31, 2021
Balance at the beginning of the year	0.35	1.37
Movement in expected credit loss allowance on trade receivables	(0.05)	(1.02)
Balance at the end of the year	0.30	0.35

11.2 Rights attached to equity shares

The Company has only one class of equity shares having a par value of $\ref{2}$ 2/- per share. Each holder of equity shares is entitled to one vote per share at the general meetings of the Company. For liquidation terms refer note 11.2a.

The Company declares and pays dividends in Indian rupees. The final dividend, if any, proposed by the Board of Directors is subject to the approval of shareholders in the ensuing Annual General Meeting.

During the year ended March 31, 2022, the amount of dividend (first interim dividend $\stackrel{?}{_{\sim}}$ 0.80 and second interim dividend $\stackrel{?}{_{\sim}}$ 1.20) per share declared as distribution to equity shareholders was $\stackrel{?}{_{\sim}}$ 2.00 (March 31, 2022: first interim dividend $\stackrel{?}{_{\sim}}$ 0.80, second interim dividend $\stackrel{?}{_{\sim}}$ 0.40 and third interim dividend of $\stackrel{?}{_{\sim}}$ 0.80).

11.2a. Liquidation terms and preferential rights

The liquidation terms of the equity shares are as follows:

- (a) If the Company shall be wound up, the Liquidator may, with the sanction of a special resolution of the Company and any other sanction required by the Act divide amongst the shareholders, in specie or kind the whole or any part of the assets of the Company, whether they shall consist of property of the same kind or not.
- (b) For the purpose aforesaid, the Liquidator may set such value as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the shareholders or different classes of shareholders.

The disaggregation of changes to OCI by each type of reserve in equity is shown below:

	For the year ended March 31, 2022	For the year ended March 31, 2021
Retained earnings:		
Remeasurement gains/(losses) on defined benefit plans	1.39	(6.76)
Deferred tax on remeasurement of defined benefit plans	(0.48)	2.38
Fair value movements on cash flow hedges	-	14.44
Deferred tax on fair value movements on cash flow hedges	-	(5.04)
Exchange differences on translating the financial statements of foreign operations	0.12	(0.01)
Total other comprehensive income for the year, net of tax	1.03	5.01

(All amounts in crore rupees except for share data or as otherwise stated)

25. Earnings per share (EPS)

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
The following reflects the profit and share data used in the basic and diluted EPS computations:		
Profit available for equity shareholders	827.52	983.58
Weighted average number of equity shares in computing basic EPS	536,813,916	535,748,294
Add: Effect of dilution		
Stock options granted under ESOP	2,355,941	2,376,365
Weighted average number of equity shares in computing diluted earnings per share	539,169,857	538,124,659
Face value of each equity share (₹)	2.00	2.00
Earnings per share		
- Basic (₹)	15.42	18.36
- Diluted (₹)	15.35	18.28

26. Details of CSR expenditure

As per the requirement of the Companies Act, 2013, gross amount required to be spent by the Group during the year is ₹ 11.34 (March 31, 2021: ₹ 4.44). The nature of CSR activities undertaken by the company includes promoting education, health care and environmental sustainability. The details of CSR expenditure is given below.

	For the ye	For the year ended March 31, 2022		
CSR Activities	In cash	Yet to be paid in cash	Total	
(i) Construction/acquisition of any asset	-	-	-	
	(-)	(-)	(-)	
(ii) On purposes other than (i) above	11.67	-	11.67	
	(5.82)	(-)	(5.82)	

Amounts in bracket indicate previous year numbers. There is no shortfall at the end of March 31,2022 and March 31, 2021 in terms of amount required to be spent by the company. The above includes contribution made to Laurus Charitable Trust amounting to ₹ 1.43 (March 31, 2021: ₹ 0.48).

27. Taxes

(a) Income tax expense:

The major components of income tax expenses for the year ended March 31, 2022 and for the year ended March 31, 2021 are:

(i) Statement of Profit and Loss

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Current tax	254.22	337.60
Deferred tax credit*	(2.80)	(20.31)
Total income tax expense recognised in Statement of Profit and Loss	251.42	317.29

^{*} Including Mat credit utilisation (net) of ₹50.72 crore (March 31, 2021: ₹108.47 crore)

(ii) Other comprehensive income (OCI)

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Tax on remeasurement of defined benefit plans	(0.48)	2.38
Tax on fair value movements on cash flow hedges	-	(5.04)
Total tax recognised in OCI	(0.48)	(2.66)

(All amounts in crore rupees except for share data or as otherwise stated)

(b) Reconciliation of effective tax rate:

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Profit before tax (A)	1,083.85	1,301.11
Enacted tax rate in India (B)	34.944 %	34.944%
Expected tax expenses (C = A*B)	378.74	454.66
Other than temporary difference		
Expenses disallowed under Income Tax Act, 1961	9.36	8.86
Effect of lower tax rate in subsidiary	(19.89)	0.74
Income exempt from income taxes under Section 10 AA	(339.11)	(363.59)
Results of subsidiary not taxable	(1.79)	(30.92)
Others	(12.92)	(8.19)
Total (D)	(364.36)	(393.10)
Profit after adjusting permanent difference	719.49	908.01
Expected tax expense	251.42	317.29
Actual income tax expense (benefit)	251.42	317.29
Effective tax rate	23.20 %	24.39%

(c) The details of component of deferred tax assets are given under note 6.

28. Gratuity

Defined benefit plans

The Group has a defined benefit gratuity plan and governed by Payment of Gratuity Act, 1972. Every employee who has completed five years or more of service is entitled to a gratuity on departure at 15 days salary for each completed year of service. The scheme is funded through a policy with SBI Life Insurance Company Limited. The following tables summarise net benefit expenses recognised in the Statement of Profit and Loss, the status of funding and the amount recognised in the Balance sheet for the gratuity plan:

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
A) Net employee benefit expense (recognised in employee benefits expenses)		
Current service cost	7.67	6.66
Interest cost	3.04	1.98
Expected return on plan assets	(0.07)	(0.04)
Net employee benefit expenses	10.64	8.60
Actual return on plan asset	(0.02)	(0.01)
B) Amount recognised in the Balance Sheet		
Defined benefit obligation	51.92	43.74
Fair value of plan assets	1.13	0.92
	50.79	42.82
C) Changes in the present value of the defined benefit obligation		
Opening defined benefit obligation	43.74	29.70
Current service cost	7.67	6.66
Interest cost	3.04	1.98
Benefits paid	(1.14)	(1.36)
Net actuarial (gains)/losses on obligation for the year recognised under OCI	(1.39)	6.76
Closing defined benefit obligation	51.92	43.74
D) Change in the fair value of plan assets		
Opening fair value of plan assets	0.92	0.21
Actual return on plan assets	0.02	0.01
Contributions	1.30	1.99
Benefits paid	(1.11)	(1.29)
Closing fair value of plan assets	1.13	0.92

The Group expects to contribute ₹6.51 to the gratuity fund in the next year (March 31, 2021: ₹4.47) against the short-term liability of ₹6.51 (March 31, 2021: ₹4.47) as per the actuarial valuation.

(All amounts in crore rupees except for share data or as otherwise stated)

The major categories of plan assets as a percentage of the fair value of total plan assets are as follows:

		For the year ended March 31, 2022	For the year ended March 31, 2021
	Investments with SBI Life Insurance Company Limited	100.00 %	100.00%
E)	Remeasurement adjustments:		
	Financial loss/(gain) on plan assets	1.39	(6.76)
	Remeasurement gains/(losses) recognised in other comprehensive income:	1.39	(6.76)

(i) The principal assumptions used in determining gratuity for the Group's plans are shown below:

	For the year ended March 31, 2022	For the year ended March 31, 2021
Discount rate	6.90 %	6.90%
Expected rate of return on assets	6.90 %	6.90%
Salary rise	11.00 %	11.00%
Attrition rate	13.00%	13.00%

The estimates of future salary increases, considered in the actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The overall expected rate of return on assets is determined based on the actual rate of return during the current year.

(ii) Disclosure related to indication of effect of the defined benefit plan on the entity's future cashflows:

Expected benefit payments for the year ending:

Year ending	For the year ended March 31, 2022	
Year 1	6.42	4.47
Year 2	5.93	4.29
Year 3 Year 4	5.85	4.34
Year 4	5.99	4.37
Year 5	5.68	4.50
Beyond 5 years	21.84	21.77

The average duration of the defined benefit plan obligation at the end of the reporting period is 26.04 years (March 31, 2021: 26.04 years).

(iii) Sensitivity analysis:

A quantitative sensitivity analysis for significant assumption is as shown below:

	For the year ended March 31, 2022	For the year ended March 31, 2021
(a) Effect of 1% change in assumed discount rate on defined benefit obligation		
- 1% increase	(3.95)	(2.18)
- 1% decrease	3.11	4.48
(b) Effect of 1% change in assumed salary escalation rate on defined benefit obligation		
- 1% increase	2.69	4.03
- 1% decrease	(3.77)	(1.98)
(c) Effect of 1% change in assumed attrition rate on defined benefit obligation		
- 1% increase	(1.23)	0.29
- 1% decrease	0.01	1.63

Defined contribution plan

	For the year ended March 31, 2022	
Contribution to provident fund	20.15	16.47
Contribution to superannuation fund	2.05	1.81

(All amounts in crore rupees except for share data or as otherwise stated)

29. Share based payments - Equity settled

ESOP 2011 Scheme

The board of directors/compensation committee has approved the Laurus Employees Stock Option Scheme (ESOP) 2011 for issue of stock options to eligible employees of the Company effective from September 19, 2011. According to the Scheme, the options granted vest within a period of four years, subject to the terms and conditions specified in the scheme. Options granted shall vest so long as the employee continues to be in the employment of the Company as on the date of vesting. Subject to an employee's continued employment with the Company, options can be exercised any time on or after the date of vesting of options as specified in the respective grants under the Scheme.

ESOP 2016 Scheme

The board of directors/compensation committee has approved the Laurus Employees Stock Option Scheme (ESOP) 2016 for issue of stock options to eligible employees of the Company effective from June 09, 2016. ^{*} The Group issued bonus shares in the ratio of 3 shares for every 1 share held.

(All amounts in crore rupees except for share data or as otherwise stated)

The details of activity under the Scheme ESOP 2011 are summarised below:

	For the year ended March 31, 2022	For the year ended March 31, 2021
	No. of options	No. of options
Outstanding at the beginning of the year	-	6,000
Forfeited during the year	-	-
Exercised during the year	-	6,000
Outstanding at the end of the year	-	-
Exercisable at the end of the year	-	-
Weighted average exercise price for all the above options	-	10

The details of activity under the Scheme ESOP 2016 are summarised below:

	For the year ended March 31, 2022	For the year ended March 31, 2021
	No. of options	No. of options
Outstanding at the beginning of the year	1,818,435	783,425
Granted during the year	-	-
Additional options on adjustment of stock split on September 29, 2020		1,977,600
Forfeited during the year	56,400	56,700
Exercised during the year	603,575	885,890
Outstanding at the end of the year	1,158,460	1,818,435
Exercisable at the end of the year	345	18,065
Options cancelled	345	-
Weighted average exercise price for all the above options	292	292

The details of activity under the Scheme ESOP 2018 are summarised below:

	For the year ended March 31, 2022	For the year ended March 31, 2021
	No. of options	No. of options
Outstanding at the beginning of the year	641,250	142,750
Granted during the year	707,000	-
Additional options on adjustment of stock split on September 29, 2020	-	540,000
Forfeited during the year	59,190	41,500
Exercised during the year	153,375	-
Outstanding at the end of the year	1,135,685	641,250
Weighted average exercise price for all the above options	255.50	255.50

For options exercised during the year, the weighted average share price at the exercise date under under ESOP 2016 scheme, was ₹131.82 per share (March 31, 2021: ₹ 131.82 per share).

The weighted average remaining contractual life for the stock options outstanding under ESOP 2016 as at March 31, 2022 is 0.67 years (March 31, 2021: 1.67 years) and under ESOP 2018 as at March 31, 2022 is 3.73 years (March 31, 2021: 2.67). The range of exercise prices for options outstanding under ESOP 2016 as at March 31, 2022 was ₹ 550.00 (March 31, 2021: ₹ 550.00) and under ESOP 2018 as at March 31, 2022 was ₹ 255.50 (March 31, 2021: ₹ 255.50).

(All amounts in crore rupees except for share data or as otherwise stated)

The weighted average fair value of stock options granted during the year under ESOP 2016 scheme was ₹ Nil (March 31, 2021: ₹ Nil) and under ESOP 2018 scheme was ₹474.70 (March 31, 2021: ₹ Nil). The Black Scholes valuation model has been used for computing the weighted average fair value considering the following inputs:

				М	arch 31, 2022

30. Trade payables (Details of dues to Micro, Small and Medium Enterprises as per MSMED Act,2006):

	For the year ended March 31, 2022	For the year ended March 31, 2021
The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting year	78.48	34.12
The amount of interest paid by the buyer in terms of Section 16, of the Micro Small and Medium Enterprise Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year	-	-
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
The amount of interest accrued and remaining unpaid at the end of each accounting year; and	-	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under Section 23 of the Micro Small and Medium Enterprise Development Act, 2006.	-	
Total	78.48	34.12

Dues to Micro and Small Enterprises have been determined to the extent such parties have been identified on the basis of information collected by the Management. This has been relied upon by the auditors.

(All amounts in crore rupees except for share data or as otherwise stated)

31. Segment reporting

- A. The Group is engaged in the manufacture of Active Pharmaceutical Ingredients, intermediates and formulations and the same constitutes a single reportable business segment as per Ind AS 108.
- B. Segment information for secondary segment reporting (by geographical segment)

The Company has reportable geographical segments based on location of its customers:

- (i) Revenue from customers within India Domestic
- (ii) Revenue from customers outside India Exports

Geographical segments

The advance given to subsidiaries are in the nature of trade advances against orders for supply of goods & services and hence not disclosed as required under regulation 53 (f) read with para A of Schedule V of Securities And Exchange Board of India (Listing Obligations And Disclosure Requirements) Regulations, 2015.

As the future liability for gratuity and leave encashment is provided on an actuarial basis for the Group as a whole, the amount pertaining to the Key Management personnel and their relatives is not ascertainable and, therefore, not included above.

The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates. Outstanding balances at the year-end are unsecured.

33. Significant accounting judgements, estimates and assumptions

The preparation of the Group's Consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

(A) Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the consolidated financial statements.

(i) Lease commitments – Group as lessor

The Group has entered into agreement to manufacture and supply intermediates produced at a dedicated block constructed exclusively for the lessee. The Group has identified assets under operating and finance lease based on the factors indicated under Appendix C to Ind AS 17 and terms of the agreement, viz. economic life of the asset vs. lease term, ownership of the asset after the lease term. The Group applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

(All amounts in crore rupees except for share data or as otherwise stated)

During the year, the Group entered into a revised agreement which resulted in lease modification and as per the terms of agreement there is no exclusive right to use or direct the use of dedicated blocks located at Unit-1 and Unit-5 respectively. Accordingly, the Group has recorded the lease modification at fair value as per Ind AS 116.

(ii) Lease commitments – Group as lessee

The Group has entered into leases for land and office premises. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the land and office premises and the fair value of the asset, that it does not retain significant risks and rewards of ownership of the land and the office premises and accounts for the contracts as operating leases. Further, refer note no. 40 A, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

(iii) Taxes

The Group has a Minimum Alternate Tax (MAT credit of ₹ 34.56 as on March 31, 2022 (March 31, 2021: 85.28). The Group recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The Group based on its future projections of profit believes that the MAT credit would be utilised by financial year 2022-23.

(B) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(i) Share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimation requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The Black Scholes valuation model has been used by the Management for share-based payment transactions. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 29.

(ii) Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

(iii) Defined employee benefit plans (Gratuity)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obliqation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries. Further details about gratuity obligations are given in Note 28.

(iv) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow ('DCF') model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See note 35 and 36 for further disclosures.

(All amounts in crore rupees except for share data or as otherwise stated)

(v) Depreciation on property, plant and equipment

Depreciation on property, plant and equipment is calculated on a straight-line basis using the rates arrived at based on the useful lives and residual values of all its property, plant and equipment estimated by the management. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of property, plant and equipment, though these rates in certain cases are different from lives prescribed under Schedule II of the Companies Act, 2013.

(vi) Impairment of goodwill

The Group estimates the value-in-use of the cash generating units (CGUs) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The discount rates used for the CGUs represent the weighted average cost of capital based on the historical market returns of comparable companies.

(C) Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19)

COVID-19 is the infectious disease caused by the most recently discovered coronavirus, SARS-CoV-2. In March 2020, the WHO declared COVID-19 a pandemic. The Group has adopted measures to curb the spread of infection in order to protect the health of our employees and ensure business continuity with minimal disruption. The Group immediately took steps to mitigate sanitary and health risks and the Group promptly set up a team of experts to assist the Health and Safety at Work places. In assessing the recoverability of receivables and other financials assets, the Group has considered internal and external information up to the date of approval of these Consolidated financial statements. The impact of the global health pandemic may be different from that of estimated as at the date of approval of these Consolidated financial statements and the Group will continue to closely monitor any material changes to future economic conditions.

34. Hedging activities and derivatives

Derivatives not designated as hedging instruments

The Group uses foreign currency denominated borrowings and foreign exchange forward contracts to manage some of its transaction exposures. The Group classifies its derivative financial instruments that hedge foreign currency risk associated with highly probable forecasted transactions as cash flow hedges and measures them at fair value. The effective portion of such cash flow hedges is recorded in the Group's hedging reserve as a component of equity and re-classified to the Statement of Profit and Loss as revenue in the period corresponding to the occurrence of the forecasted transactions. The ineffective portion of such cash flow hedges is recorded in the Statement of Profit and Loss immediately. All outstanding forward contracts have maturity period of less than twelve months. Refer note no. 37(d) for disclosure on hedges of highly probable forecasted transactions.

35. Fair values

Set out below, is a comparison by class of the carrying amounts and fair value of the Group's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

	Carrying	value	Fair vo	Fair value	
_	March 31, 2022	March 31, 2021	March 31, 2022	March 31, 2021	
Financial assets at fair value through profit or loss:					
Investments	3.41	3.41	3.41	3.41	
Financial assets at amortised cost:					
Loans	0.64	0.68	0.64	0.68	
Deposits and export and other incentive receivables	62.22	81.40	62.22	81.40	
Trade receivables	1,354.18	1,306.06	1,354.18	1,306.06	
Cash and cash equivalents	75.35	48.46	75.35	48.46	
Other balances with banks	0.59	-	0.59	-	
Financial liabilities at amortised cost:					
Borrowings (Non-current and current)	1,732.03	1,453.20	1,732.03	1,453.20	
Interest accrued	3.55	2.36	3.55	2.36	
Trade payables	876.37	1,178.69	876.37	1,178.69	
Capital creditors and others	297.15	95.85	297.15	95.85	
Gross obligation liability to acquire non-controlling interest	83.20	83.20	83.20	83.20	
Financial liabilities (assets) at fair value through profit and loss:					
Derivative contracts	(1.81)	14.44	(1.81)	14.44	
Financial liabilities at fair value through OCI					
Hedges of high probable forecasted transactions	-	(14.44)	-	(14.44)	

(All amounts in crore rupees except for share data or as otherwise stated)

The management assessed that cash and cash equivalents, trade receivables, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. Further, the management has assessed that fair value of borrowings approximate their carrying amounts largely since they are carried at floating rate of interest.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

36. Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

Quantitative disclosures fair value measurement hierarchy for assets and liabilities as at March 31, 2022:

		Fai	r value measurement	Fair value measurement using				
	Date of valuation	Total	Quoted prices in active markets	Significant observable inputs	Significant unobservable inputs			
		_	(Level 1)	(Level 2)	(Level 3)

Measurement of fair value

Valuation techniques

The following table shows the valuation techniques used in measuring Level 2 fair values for assets and liabilities carried at fair value through profit or loss.

Туре	Valuation Technique
Assets measured at fair value:	
Investments	The fair value is determined based on value per share derived from net worth of the Company as at the reporting date.
Liabilities measured at fair value:	
Derivative financial instruments	The fair value is determined using quoted forward exchange rates at the reporting date.

(All amounts in crore rupees except for share data or as otherwise stated)

37. Financial risk management objectives and policies

Financial Risk Management Framework

The Group is exposed primarily to Credit risk, liquidity risk and market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Group assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Group.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Group result in material concentration of credit risk, except for trade receivables.

Trade receivables:

The customer credit risk is managed by the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on the individual credit limits are defined in accordance with this assessment and outstanding customer receivables are regularly monitored. Of the trade receivables balance, ₹ 481.99 in aggregate (as at March 31, 2021 ₹ 698.65) is due from the Group's customers individually representing more than 5% of the total trade receivables balance and accounted for approximately 36% (March 31, 2021: 55%) of all the receivables outstanding. The Group' receivables turnover is quick and historically, there was no significant defaults on account of those customer in the past. Ind AS requires an entity to recognise in profit or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised in accordance with Ind AS 109. The Group assesses at each date of statements of financial position whether a financial asset or a group of financial assets is impaired. Expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information.

Before accepting any new customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed on periodic basis. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix.

Exposure to credit risk:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was \$1,354.18 and \$1,306.06 as of March 31, 2022 and March 31, 2021 respectively, being the total of the carrying amount of balances with trade receivables.

Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

March 31, 2022:	Up to 1 year	1 to 3 years	3 to 5 years	> 5 years	Total
Non-current borrowings (including current maturities)	237.48	530.42	53.41	-	821.31
Current borrowings	910.72	-	-	-	910.72
Interest accrued	3.55	-	-	-	3.55
Trade payables	876.37	-	-	-	876.37
Other payables	297.15	-		-	297.15
Gross obligation liability to acquire Non-controlling interest	-	-	83.20	-	83.20
	2,325.27	530.42	136.61	-	2,992.30

(All amounts in crore rupees except for share data or as otherwise stated)

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Group's exposure to market risk is primarily on account of foreign currency exchange rate risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. In order to optimise the Group's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Group's profit before tax is affected through the impact on borrowings, as follows:

	Chang	Change in basis points		Effect on profit before tax	
	Increase	Decrease	Decrease	Increase	
March 31, 2022					
Indian Rupees	0.50 %	0.50 %	(6.86)	6.86	
US Dollars	0.50 %	0.50 %	(2.42)	2.42	
March 31, 2021					
Indian Rupees	0.50%	0.50%	(4.61)	4.61	
US Dollars	0.50%	0.50%	(1.82)	1.82	

 $The \ assumed \ movement in \ basis points for the interest rate sensitivity \ analysis is \ based on the \ currently \ observable \ market \ environment.$

Foreign Currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the Statement of Profit and Loss and other comprehensive income and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Group operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar against the functional currencies of the Group. The Group, as per its risk management policy, uses derivative instruments primarily to hedge foreign exchange. The Group evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. It hedges a part of these risks by using derivative financial instruments in line with its risk management policies. The information on derivative instruments is as follows:

a) Forward Contract (Derivatives):

Forward contract outstanding as at Balance Sheet date:

March 31, 2022 Sell US \$ 22,000,000 Designated as fair value hedge – receivables

March 31, 2021 Sell US \$ 38,330,386 Designated as fair value hedge – receivables

(All amounts in crore rupees except for share data or as otherwise stated)

b) Details of Unhedged Foreign Currency Exposure:

The year end foreign currency exposures that have not been hedged by a derivative instrument or otherwise are as under:

		Мα	rch 31, 2022			March 31, 2021

^{*} Amount less than Indian Rupees 100,000

c) Foreign currency sensitivity:

The following tables demonstrate the sensitivity to a reasonably possible change in USD and EURO exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives. The Group's exposure to foreign currency changes for all other currencies is not material.

	Change in fore	Change in forex rate		e tax
	Increase	Decrease	Increase/(Decreas	ıse)

EURO	1.00 %	1.00%	0.17	(0.17)

(All amounts in crore rupees except for share data or as otherwise stated)

d) Hedges of highly probable forecasted transactions:

In respect of hedges of highly probable forecasted transactions, the Company recorded, as a component of equity, a net loss of \mathfrak{T} Nil for the year ended March 31, 2022 (for the year ended March 31, 2021: \mathfrak{T} Nil).

The net carrying amount of the Company's "hedging reserve" as a component of equity before adjusting for tax impact is ₹ Nil as at March 31, 2022 (as at March 31, 2021: ₹ Nil).

The below table summarises the periods when the cash flows associated with highly probale forecasted transactions that are classified as cash flow hedges are expected to occur.

		USD Million
Particulars	March 31, 2022	March 31, 2021
Not later than one month	-	-
Later than one month and not later than three months	-	-
More than three months and not later than twelve months	-	-
Total	-	-

e) Impact of COVID-19 (Global pandemic)

The Group basis their assessment believes that the probability of the occurrence of their forecasted transactions is not impacted by COVID-19 pandemic. The Group has also considered the effect of changes, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness. The Group continues to believe that there is no impact on effectiveness of its hedges.

38. Group Information

- 1) During the year ended March 31, 2021, Laurus Synthesis Inc. USA (100% wholly-owned subsidiary of the Company) has been merged with Laurus Generics Inc. USA (Step-down subsidiary of the Company) with effect from September 30, 2020.
- 2) During the year ended March 31, 2021, the Company acquired 79.21% stake in Laurus Bio Private Limited (Formerly known as Richcore Lifesciences Private Limited)
- 3) During the year ended March 31, 2021, the Company incorporated wholly-owned subsidiary, Laurus Synthesis Private Limited (LSPL) in India.
- 4) During the year ended March 31, 2021, the Company acquired 100% shares of Phekolong Pharmaceuticals Pty. Ltd, (renamed as Laurus Generics SA (Pty.) Ltd.) a wholly-owned subsidiary of Pharmacare Limited t/a Aspen Pharmacare, South Africa.
- 5) During the year ended March 31, 2022, the Company entered into an investment agreement with Immunoadoptive Cell Therapy Private Limited, (''ImmunoACT") to acquire 26.62% stake, subject to completion of conditions precedent, for agreed consideration of ₹ 46 crore. As on March 31, 2022, the Company invested ₹ 27.60 crore representing 996 equity shares of ₹ 10/- each fully paid-up and 3,983 compulsorily convertible preference shares of ₹ 10/- each of which ₹ 5/- paid-up, with a stake of 18.94%.

(All amounts in crore rupees except for share data or as otherwise stated)

39. Business combination

Acquisitions/Merges during the year ended March 31, 2021:

A) Merger of Laurus Synthesis Inc. USA with Laurus Generics Inc. USA:

During the year ended March 31, 2021, Laurus Synthesis Inc. USA (100% wholly-owned subsidiary of the Company) has been merged with Laurus Generics Inc. USA (Step-down subsidiary of the Company) with effect from September 30, 2020. The Company accounted for the business combination in accordance with the requirement of Appendix C of Ind AS 103 Business Combination which lays down the principles in respect of accounting for business combinations of entities or businesses under common control. As required by the standard, pooling of interest method has been considered for common control business combination and accordingly, the assets and liabilities are reflected in the books of the Company at their respective carrying amounts. There is no impact of this transaction on the consolidated financial statements. For 30,000 Equity shares of USD 100/each of Laurus Synthesis Inc., 6,100 Equity shares of USD 100/each of Laurus Generics Inc., have been allotted based on the share exchange ratio of 1:0.2033.

B) Acquisition of Phekolong Pharmaceuticals Pty. Ltd., South Africa:

During the year ended March 31, 2021, the Company acquired 100% shares of Phekolong Pharmaceuticals Pty. Ltd., (renamed as Laurus Generics SA (Pty) Ltd.) a wholly-owned subsidiary of Pharmacare Limited t/a Aspen Pharmacare, South Africa, by way of cash consideration of ZAR 75,000. The Company recorded a Goodwill amount of ₹0.03 crore

C) Laurus Synthesis Private Limited acquired a bulk drug manufacturing unit from Phalanx Labs Private Limited:

During the current year ended March 31, 2021, the Company entered into a Business transfer agreement and acquired a bulk drug manufacturing unit from Phalanx Labs Private Limited, located at Visakhapatnam, on a slump sale basis for a lump sum consideration of \mathfrak{T} 61 crore, w.e.f. June 01, 2020. The Company accounted for the business combination in accordance with the requirement of Ind AS 103 Business Combination which lays down the principles in respect of accounting for business combinations. Accordingly, assets acquired has been recorded at fair values (Property, plant and equipments \mathfrak{T} 60 crore and other assets \mathfrak{T} 1 crore).

D) Acquisition of stake in Stake in Laurus Bio Private Limited (Formerly known as Richcore Lifesciences Private Limited):

During the current year ended March 31, 2021, the Company acquired 72.55% stake in Laurus Bio Private Limited ['Laurus Bio'] (Formerly known as Richcore Lifesciences Private Limited) on January 20, 2021. for a consideration of ₹ 246.67 crore. Laurus Bio became the subsidiary w.e.f. January 20, 2021.

Business combinations are accounted for using the purchase (acquisition) method as per the provisions of Ind AS 103, Business Combinations. The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed

Assets acquired and liabilities assumed

Fair value of identifiable assets acquired and liabilities assumed as on the date of acquisition is as below:

Component	Fair value as on acquisition date
Property, plant and equipment	16.76
Right-of-use assets	5.06
Intangible assets	0.15
Non-current assets	25.46
Current assets *	18.99
Total Assets (i)	66.42
Non-current liabilities	10.78
Current liabilities	41.66
Total Liabilities (ii)	52.44
Fair value of identifiable net assets (i-ii)	13.98
Goodwill	236.53
Less: Non-controlling interest	(3.84)
Total purchase price	246.67

^{*} Includes cash and cash equivalents acquired ₹2.16 crore

The Company further acquired 6.66% stake on February 10, 2021 for a consideration of $\ref{13.77}$ crore. Accordingly an amount of $\ref{13.84}$ crore has been adjusted to non-controlling interest and balance amount of $\ref{12.84}$ crore has been adjusted to other equity. As at March 31, 2022 the Company holds 76.60% (March 31, 2021: 79.21%) stake in Laurus Bio Private Limited.

(All amounts in crore rupees except for share data or as otherwise stated)

40. Capital management

For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Group's capital management is to maximise the shareholder value.

The Group manages its capital structure in consideration to the changes in economic conditions and the requirements of the financial covenants. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group intends to keep the gearing ratio between 0.5 to 1.5. The Group includes within net debt, borrowings including interest accrued on borrowings, less cash and short-term deposits.

	March 31, 2022	March 31, 2021
Borrowings including interest accrued on borrowings (Note 13)	1,735.58	1,455.56
Less: cash and cash equivalents; other balances with banks (Note 10A and 10B)	(75.94)	(48.46)
Net debt	1,659.64	1,407.10
Equity	107.47	107.32
Other equity	3,243.72	2,490.23
Total Equity	3,351.19	2,597.55
Gearing ratio (Net debt/ Total equity)	0.50	0.54

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2022.

41. Commitments and Contingencies

A. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Operating lease commitments – Group as lessee

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate.

The Group has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

(All amounts in crore rupees except for share data or as otherwise stated)

The Group has adopted Ind AS 116, effective annual reporting period beginning April 01, 2019 and applied the standard to its leases, retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 01, 2019). Accordingly, the Group has not restated comparative information, instead, the cumulative effect of initially applying this standard has been recognised as an adjustment to the opening balance of retained earnings as on April 01, 2019. On transition, the adoption of the new standard resulted in recognition of Right-of-Use asset (ROU) of ₹44.85 crore and a lease liability of ₹ 23.25 crore. The cumulative effect of applying this standard resulted in ₹ 0.22 crore being debited to retained earnings (net of taxes).

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2022 and March 31, 2021

Particulars	March 31, 2022	March 31, 2021
Opening Balance	55.16	42.89
Additions	87.41	9.46
Additions through business combination	-	5.06
Depreciation	(4.51)	(2.25)

Place: Hyderabad Date: April 28, 2022

Notes:

- 1. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 in respect of Special Business set out above is annexed hereto and forms part of the Notice.
- 2. Brief resume of Directors proposed to be appointed/
 re- appointed, (in item nos. 5,6,9 &10) nature of their
 expertise in specific functional areas, name of companies
 in which they hold directorships and membership/
 chairmanships of Board Committees and shareholding in
 the Company as stipulated under SEBI (LODR) Regulations,
 2015 are provided as an Annexure to this notice and also in
 the Report on Corporate Governance forming part of the
 Annual Report.
- 3. In view of the outbreak of the COVID-19 pandemic, Ministry of Corporate Affairs (MCA), Government of India, vide circular Nos. Circular No. 14/2020 dated April 08, 2020, Circular No.17/2020 dated April 13, 2020 read with Circular No. 20/2020 dated May 05, 2020, allowed companies to hold their AGM through Video Conferencing (VC) and vide its General Circular No.21/2021 dated December 14, 2021 MCA allowed the companies to conduct their Annual General Meetings on or before June 30, 2022 through video conferencing (VC) or other Audio Visual Means (OAVMs) in

- accordance with the requirements in paragraphs 3 and 4 of the General Circular No. 20/2020.
- 4. Accordingly, in compliance with the applicable provisions of the Companies Act, 2013 read with the aforesaid circulars issued by MCA, the 17th Annual General Meeting of the Company shall be conducted through Video Conferencing (VC) to be referred to as "e-AGM".
- The Company has appointed M/s. National Securities
 Depository Limited (NSDL) to provide Video Conferencing
 facility for the e-AGM
- 6. In the e-AGM:
 - a) Members can attend the meeting through log in credentials provided to them to connect to Video Conference. Physical attendance of the Members at the Meeting venue is not required.
 - b) Appointment of proxy to attend and cast vote on behalf of the member is not available.
 - Body Corporates are entitled to appoint authorised representatives to attend the e-AGM through VC and participate thereat and cast their votes through e-voting.

- 7) The Register of Members and Share Transfer Books of the Company will remain closed from June 24, 2022 to June 30, 2022 (both days inclusive) for the purpose of Annual General Meeting.
- 8) The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit their PAN to their depository participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN to the Company/RTA.
- Members are requested to note that the dividend remaining unclaimed for a continuous period of seven years from the date of transfer to the Company's Unpaid Dividend Account shall be transferred to the Investor Education and Protection Fund (IEPF). In addition, all equity shares in respect of which dividend has not been paid or claimed for seven consecutive years or more shall be transferred by the Company to demat account of the IEPF authority within a period of thirty days of such equity shares becoming due to be transferred to the IEPF. In the event of transfer of equity shares and the unclaimed dividends to IEPF, Members are entitled to claim the same from IEPF authority by submitting an online application in the prescribed Form IEPF-5 available on the website www.iepf.gov.in and sending a physical copy of the same duly signed to the Company along with the requisite documents enumerated in Form IEPF-5. Members can file only one consolidated claim in a financial year as per the IEPF rules.
- 10) Pursuant to Rule 5(8) of Investor Education and Protection Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, the Company has uploaded details of unpaid and unclaimed amounts lying with the Company as on July 15, 2021 (date of last AGM) on its website at www. lauruslabs.com and also on the website of the Ministry of Corporate Affairs.
- 11) The Notice calling the e-AGM has been uploaded on the website of the Company at www.lauruslabs.com. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia. com respectively.
- 12) The Members can join the e-AGM 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice.
- 13) Up to 1,000 members will be able to join on a First Come First Serve basis to the e-AGM.
- 14) No restrictions on account of First Come First Serve basis entry into e-AGM in respect of large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc.
- 15) The attendance of the Members (members' logins) attending the e-AGM will be counted for the purpose of

- reckoning the quorum under Section 103 of the Companies Act, 2013.
- 16) **Remote e-Voting:** Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), the Company is providing facility of remote e-voting to its Members through e-Voting agency M/s. National Securities Depository Limited (NSDL).
- 17) Voting at the e-AGM: Members who could not vote through remote e-voting may avail the e-voting system provided in the e-AGM by M/s. National Securities Depository Limited (NSDL).
- 18) The Statutory Registers and the documents pertaining to the items of business to be transacted at the AGM are available for inspection in electronic mode. The shareholders may write an e-mail to secretarial@lauruslabs.com and the Company shall respond suitably.

Login Method for e-Voting and joining virtual meeting for shareholders other than Individual shareholders holding securities in demat mode and shareholders holding securities in physical mode.

How to Log-in to NSDL e-Voting website?

- Visit the e-Voting website of NSDL. Open web browser by typing the following URL: https://www.evoting.nsdl. com/ either on a Personal Computer or on a mobile.
- Once the home page of e-Voting system is launched, click on the icon "Login" which is available under 'Shareholder/Member' section.
- A new screen will open. You will have to enter your User ID, your Password/OTP and a Verification Code as shown on the screen.

Alternatively, if you are registered for NSDL eservices i.e. IDEAS, you can log-in at https://eservices.nsdl.com/ with your existing IDEAS login. Once you log-in to NSDL eservices after using your log-in credentials, click on e-Voting and you can proceed to Step 2 i.e. Cast your vote electronically.

Your User ID details are given below:

Manner of holding shares i.e. Demat (NSDL or CDSL) or Physical	Your User ID is:
a) For Members who hold shares in demat account with NSDL.	8 Character DP ID followed by 8 Digit Client ID
For example if your DP ID is IN300*** and Client ID is 12***** then your user ID is IN300***12*****.	
b) For Members who hold shares in demat account with CDSL.	16 Digit Beneficiary ID For example if your Beneficiary ID is 12************************************
c) For Members holding shares in Physical Form.	EVEN Number followed by Folio Number registered with the company For example if folio number is 001*** and EVEN is 101456 then user ID is 101456001***

- Password details for shareholders other than Individual shareholders are given below:
 - If you are already registered for e-Voting, then you can user your existing password to login and cast your vote.
 - If you are using NSDL e-Voting system for the first time, you will need to retrieve the 'initial password' which was communicated to you. Once you retrieve your 'initial password', you need to enter the 'initial password' and the system will force you to change your password.

- c) How to retrieve your 'initial password'?
 - If your e-mail ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your e-mail ID. Trace the e-mail sent to you from NSDL from your mailbox. Open the e-mail and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your 'User ID' and your 'initial password'.
 - If your e-mail ID is not registered, please follow steps mentioned below in process for those shareholders whose e-mail ids are not registered.
- 6. If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:
 - Click on "Forgot User Details/Password?" (If you are holding shares in your demat account with NSDL or CDSL) option available on www.evoting.nsdl.com.
 - Physical User Reset Password?" (If you are holding shares in physical mode) option available on www. evoting.nsdl.com.
 - c) If you are still unable to get the password by aforesaid two options, you can send a request at evoting@nsdl. co.in mentioning your demat account number/folio number, your PAN, your name and your registered address etc.
 - Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.
- 7. After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box.
- 8. Now, you will have to click on "Login" button.
- After you click on the "Login" button, Home page of e-Voting will open.

Step 2: Cast your vote electronically and join General Meeting on NSDL e-Voting system.

How to cast your vote electronically and join General Meeting on NSDL e-Voting system?

- (i) After successful login at Step 1, you will be able to see all the companies "EVEN" in which you are holding shares and whose voting cycle and General Meeting is in active status.
- (ii) Select "EVEN" of company for which you wish to cast your vote during the remote e-Voting period and casting your vote during the General Meeting. For joining virtual meeting, you need to click on "VC/OAVM" link placed under "Join General Meeting".
- (iii) Now you are ready for e-Voting as the Voting page opens.
- (iv) Cast your vote by selecting appropriate options i.e. assent or dissent, verify/modify the number of shares for which you wish to cast your vote and click on "Submit" and also "Confirm" when prompted.

- (v) Upon confirmation, the message "Vote cast successfully" will be displayed.
- (vi) You can also take the printout of the votes cast by you by clicking on the print option on the confirmation page.
- (vii) Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

General guidelines for shareholders

- (i) Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) are required to send scanned copy (PDF/JPG Format) of the relevant Board Resolution/ Authority letter etc. with attested specimen signature of the duly authorised signatory(ies) who are authorised to vote, to the Scrutiniser by e-mail to yravifcs@gmail.com with a copy marked to evoting@nsdl.co.in.
- (ii) It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential. Login to the e-voting website will be disabled upon five unsuccessful attempts to key in the correct password. In such an event, you will need to go through the "Forgot User Details/Password?" or "Physical User Reset Password?" option available on www.evoting.nsdl. com to reset the password.
- (iii) In case of any queries, you may refer the Frequently Asked Questions (FAQs) for Shareholders and e-voting user manual for Shareholders available at the download section of www. evoting.nsdl.com or call on toll free no.: 1800 1020 990 and 1800 22 44 30 or send a request by e-mail to evoting@nsdl. co.in
- 10. Process for those shareholders whose e-mail ids are not registered with the depositories for procuring user id and password and registration of e mail ids for e-voting for the resolutions set out in this notice:
 - (i) In case shares are held in physical mode please provide Folio No., Name of shareholder, scanned copy of the share certificate (front and back), PAN (self-attested scanned copy of PAN card), AADHAR (self-attested scanned copy of Aadhar Card) by e-mail to secretarial@lauruslabs.com and evoting@nsdl.co.in.
 - (ii) In case shares are held in demat mode, please provide DPID-CLID (16 digit DPID + CLID or 16 digit beneficiary ID), Name, client master or copy of Consolidated Account statement, PAN (self-attested scanned copy of PAN card), AADHAR (self-attested scanned copy of Aadhar Card) to secretarial@lauruslabs. com and evoting@nsdl.co.in. If you are an Individual shareholders holding securities in demat mode, you are requested to refer to the login method explained at step 1 (A) i.e. Login method for e-Voting and joining virtual meeting for Individual shareholders holding securities in demat mode.
 - (iii) Alternatively shareholder/members may send a request to evoting@nsdl.co.in for procuring user id and password for e-voting by providing above mentioned documents.

(iv) In terms of SEBI circular dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are required to update their mobile number and e-mail ID correctly in their demat account in order to access e-Voting facility.

Instructions for members for e-Voting during the e-AGM session:

- 11. The procedure for e-Voting on the day of the e-AGM is same as the instructions mentioned above for remote e-voting.
- 12. Only those Members/ shareholders, who will be present in the e-AGM through Video Conference facility and have not casted their vote through remote e-Voting are eligible to vote through e-Voting in the e-AGM and they can exercise their vote while they are connected in the Video Conference by following the guidelines provided therein.
- 13. However, members who have voted through Remote e-Voting will be eligible to attend the e-AGM.
- 14. The Board of Directors of the Company has appointed Mr.Y.Ravi Prasada Reddy, Proprietor of RPR Associates, a Practicing Company Secretary, as scrutiniser to scrutinise the remote e-voting process and voting at the meeting in a fair and transparent manner and he has communicated his willingness to be appointed and will be available for the said purpose.

- 15. The voting rights shall be reckoned on the paid-up value of shares registered in the name of the member/ beneficial owner (in case of electronic shareholding) as on the cut-off date i.e. June 23, 2022.
- 16. A person, whose name is recorded in the register of members or in the register of beneficial owners maintained by the depositories as on the cut-off date i.e. June 23, 2022 only shall be entitled to avail the facility of remote e-voting/ e-voting at the meeting.

The results shall simultaneously be communicated to the Stock Exchanges.

EXPLANATORY STATEMENT UNDER SECTION 102 OF THE COMPANIES ACT 2013

Item No. 8:

The Board, on the recommendation of the Audit Committee, has approved the appointment of M/s. Sagar & Associates, Cost Accountants, as Cost Auditors at a remuneration of ₹5,50,000/-(Rupees Five lakhs and Fifty thousand only) per annum plus out of pocket expenses at actuals and GST, to conduct the audit of the cost records of the Company for the financial year ending 31 March 2023.

In accordance with the provisions of the Section 148 of the Companies Act, 2013, read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors has to be approved by the members of the Company.

Accordingly, consent of the members is sought for passing an Ordinary Resolution as set out at Item No.8 of the Notice for approval of the remuneration payable to the Cost Auditors for the financial year ending March 31, 2023.

The Board recommends the resolution set forth in the Item No. 8 of the Notice for approval of the members.

None of the Directors or Key Managerial Personnel or relatives of Directors and Key Managerial Persons are, in any way, concerned or interested, financially or otherwise, in this resolution.

Item No. 9

Re-appointment of Dr. Venugopala Rao Malempati as Independent Director

Dr. Venugopala Rao Malempati was appointed as a Non-Executive Independent Director on the Board of the Company by the Members of the Company with effect from May 18, 2017.

Dr. M. Venu Gopala Rao is a B.Sc. (Hons) in Chemical Engineering from Andhra University, with a post-graduation in pulp and paper technology from the Forest Research Institute, Dehradun. He received advanced training in pulp and paper technology in the US and, subsequently, undergone one year of intensive training in rayon grade pulping at M/s. Snia Viscosa S.P.A. Italy, a pioneer in man-made fibre industry. Dr. Rao was the former Chairman of Indian Paper Makers Association and was a Director on the Boards of various companies of Nava Bharat Group.

In terms of Sections 149, 152 and 161 read with Schedule IV and other applicable provisions of the Companies Act, 2013, and the rules and regulations issued thereunder, each as amended, (the "Companies Act") Dr. Venugopala Rao Malempati being eligible is proposed to be reappointed as an independent director for a further period of 2 consecutive years from May 18, 2022 to May 17, 2024. In the opinion of the Board, Dr. Venugopala Rao Malempati fulfils the conditions specified in the Companies Act for his appointment as an independent director of the Company and is independent of the management.

The Board recommends the resolution in relation to re-appointment of Dr. Venugopala Rao Malempati as an Independent Director, for the approval by the shareholders of the Company.

Except Dr. Venugopala Rao Malempati, being an appointee, none of the Directors, managers and key managerial personnel of the Company and their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No. 9.

Item No. 10

Re-appointment of Dr. Ravindranath Kancherla as Independent Director

Dr. Ravindranath Kancherla was appointed as a Non-Executive Independent Director on the Board of the Company by the Shareholders of the Company with effect from May 18, 2017.

Dr. Kancherla is a world-renowned expert in surgical gastroenterology and laparoscopic surgery and is heading the Global Hospitals Group. He developed India's most comprehensive hospital dedicated to gastroenterology and a centre to efficiently conduct the complicated procedure of organ transplantation. With extensive experience in surgeries, Dr. Ravindranath Kancherla has become an authority in liver, pancreatic and bile duct resections, revision gastric surgeries and reconstructive coloproctology. He has trained over 700 surgeons in laparoscopic procedures.

In terms of Sections 149, 152 and 161 read with Schedule IV and other applicable provisions of the Companies Act, 2013, and the rules and regulations issued thereunder, each as amended, (the "Companies Act") Dr. Ravindranath Kancherla, being eligible, is proposed to be reappointed as an independent director for a further period of 5 consecutive years from May 18, 2022 to May 17, 2027. In the opinion of the Board, Dr. Ravindranath Kancherla fulfils the conditions specified in the Companies Act for his re-appointment as an independent director of the Company and is independent of the management.

The Board recommends the resolution in relation to reappointment of Dr. Ravindranath Kancherla as an Independent Director, for the approval by the shareholders of the Company.

Except Dr. Ravindranath Kancherla, being an appointee, none of the Directors, managers and key managerial personnel of the Company and their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No. 10.
